Student/Parent Handbook

Halfway R-III Schools Mission Statement

Halfway R-III Schools, in partnership with students, parents, and community, will provide opportunities for individuals to become productive, lifelong learners.

Greetings Students, Parents, and Guardians!

Welcome to another school year at Halfway Junior/Senior High School! I am grateful for the opportunity to serve in such a wonderful district and community, and look forward to getting to know each of you as the year progresses. My role as principal encompasses many responsibilities and duties, but ultimately my purpose is to serve as a resource to ensure that every student at Halfway succeeds, and is prepared for life beyond their time here as a student.

In order to accomplish this goal, each student will be challenged educationally, socially, and emotionally through a variety of academic and extracurricular opportunities. We encourage each student to embrace these challenges by approaching them with a positive attitude, and a commitment to giving their best effort. This approach will not only lend to their success as a student, but also in life!

With that being said, the life of a young adult can be hard, and often requires a great deal of support. My hope is for the school and home to work together to build a framework of stability for each student. By doing so, I believe the results of our efforts will be amplified and the student experience will be greater. This relationship will be highlighted by mutual respect, and will be fostered by consistent and ongoing communication.

This handbook is an initial communication resource that provides important information regarding the operations and expectations here at school. Please take the time to read it and familiarize yourself with its contents. If at any time you have questions or concerns, please do not hesitate to contact me.

Respectfully,

Mr. Lawrence Graves
JH/HS Principal

This handbook will be used as a foundation to promote responsible behavior on the part of each student at Halfway Junior/Senior High School. The purpose of this handbook is to ensure the safe and orderly environment for learning in the school. The handbook provides for all affected a clear statement of the expectations this school district has for its students and the consequences that may follow when deviations from the expectations occur. Please take the time to read this handbook.

INTRODUCTION

The Halfway R-III School District is determined to provide a safe and disciplined learning environment so that all students will learn successfully. This handbook provides policies and procedures that have been approved by the Board of Education. It is a vital part of our school's information network. While it contains much of what you need to know, it is not designed to be all-inclusive. If questions or problems arise concerning a particular school-related issue, please adhere to the following chain of command: 1) consult with the involved teacher(s); 2) consult the principal; 3) meet with the superintendent; and, 4) if a satisfactory resolution is not achieved with either the principal or the superintendent, you may officially request a meeting with the Board of Education. It is our expectation that all students and parents will review the policies and procedures contained herein. (See Board Policies JFAA & JFH)

THE HALFWAY VISION STATEMENT

The Halfway R-III Schools will graduate well-rounded students who have the skills and knowledge necessary to develop their own visions and goals for their futures while understanding the opportunities available for success in our global society. We will strive for excellence in this endeavor and encourage all students to do the same. We will continue supporting school and community interaction understanding that our interdependence benefits all.

THE HALFWAY PHILOSOPHY OF EDUCATION

Recognizing each student as a unique individual, we believe that education should provide an opportunity for the maximum development of each individual within the limitations of his or her capacities. Through education, it is possible for the individual to discover and endeavor to achieve to the limits of his or her capacities (AD Basic).

THE HALFWAY PHILOSOPHY OF STUDENT DISCIPLINE

It is the objective and policy of Halfway High School to recognize, preserve, and protect the individual rights of all students and, yet, enforce the protection of those rights within the necessary framework of a safe, orderly, efficient, and nurturing school program. The quality of discipline in the school is a blend of values and attitudes of everyone within the educational community. We believe that discipline and academic achievement are very closely related. We appreciate the fact that discipline, order, safety, and cooperation are essential for people to meet and work together in harmony. All individuals associated with the school must share the responsibility for creating and supporting a positive learning environment

It is the Board's belief that, as part of the educational process, students should be made aware of the legal rights and of the legal authority of the Board to make and delegate authority to its staff and to make rules and regulations regarding the orderly operation of the school district. If the policy guidelines adopted by the Board are to be successful, it must be understood that school officials and teachers have the authority to interpret and apply policy in a given situation. Students must obey any such interpretation, subject to an appeal.

Schools must be a place where students are encouraged to learn. Standards of conduct are established by the Halfway R-III Schools Board of Education to create an environment in which each student's right to learn is protected.

The Board of Education has the legal authority to make all needful policies, rules and regulations for organizing, grading, and governing the Halfway R-III Schools. This includes the power to suspend or expel a student for conduct which is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of the students. The Board may also delegate to the Superintendent the responsibility to make reasonable and necessary rules and regulations governing the conduct of students in the district. These rules will apply to all students in attendance in district instructional and support programs as well as school-sponsored activities and events.

Building principals are responsible for the development of rules and regulations regarding student conduct needed to maintain proper behavior in schools under their supervision. Principals may summarily suspend any student for up to ten (10) days for violation of these regulations. The list of offenses listed in this handbook are not exhaustive. The district can discipline a student for any action that is disruptive to the school environment whether it occurs on or off school property. Consequences for any offense may be increased or decreased depending upon the circumstances. Flagrant disregard to policies, rules, and regulations or continued truancy may result in suspension by the Superintendent or expulsion. The Superintendent may suspend a student for one hundred eighty (180) days; however, expulsion of students is a function only of the Board of Education. Although the majority of students in the school district follow the rules of the district, those who fail to comply should expect consequences.

All school personnel have the responsibility to instruct, guide, and supervise students during school and school-sponsored activities with the objectives of promoting positive learning experiences and responding effectively to unacceptable student behavior. Proper instruction and supervision is everyone's responsibility and in large measure will produce good student behavior.

HALFWAY R-III GOALS FOR STUDENT SUCCESS

The Halfway School District will provide students with basic skills that are necessary to be life-long learners and the knowledge necessary to exercise all opportunities that may be available to students upon graduation from high school.

- 1) The Halfway School District will provide current motivational instruction necessary for students to compete in the "real world" by hiring teachers who believe that every child can learn if given appropriate time in conjunction with instructional strategies that fit their mode of learning while maintaining high expectations.
- 2) The Halfway School District will provide a safe and orderly school climate that is conducive to effective instruction and successful learning.
- 3) The Halfway School District will ensure a high quality of education by providing and maintaining efficient management of programs, plant, and facilities (AE Basic).

RISING TO THE HALFWAY CHALLENGE

The central purpose of Halfway High School is to provide students with the best possible learning environment and experiences. We encourage students to do their very best in school, every day. Our success depends on solid habits of learning, self-discipline, dedication, and hard work. We encourage students to take an academically rigorous schedule and actively participate in the school's extensive extra-curricular program. We want these years to be the best of our students' lives!

HALFWAY SPIRIT

The official school mascot is a Cardinal. School colors are cardinal red and white. We encourage you to show school spirit throughout the school year and at all school-sponsored activities. Remember, you are a reflection of our school! Please show your spirit and learn the school's song (alma mater):

*Down in the hills of old Missouri
At the gateway of the west
stands the dear old Halfway High School
loved by all of us the best.
So gather round this little building
sweetest memories will cling
of the days when dear old High School
sheltered us beneath her wings.
So may our watchward, duty, honor,
be to us a beacon light.
That will guide our wavering footsteps
through the darkness of the night.
And when our school days here are over
and we take our part in life
we will think of you dear High School
as you guide us in our strife.*

A+ SCHOLARSHIP PROGRAM

Halfway High School has a certified A+ Program. Interested students should contact the A+ Coordinator for details about requirements, guidelines, contracts, benefits, etc. We strongly encourage students to look over the guidelines early in their high school career as many of the requirements begin with entry into high school. Program Handbooks are available through the A+ Coordinator.

ACCIDENT PREVENTION AND EYE PROTECTION

Students, teachers, and visitors are required to wear industrial quality eye protective devices when participating in or observing the following activities in any class: exposure to molten materials, milling, sawing, turning, shaping, cutting, grinding, or stamping any solid materials; heat treatment, tempering, kiln firing of any materials; gas or other forms of welding; repair or servicing of any motorized vehicle; and or/, exposure to laboratory use of caustic, explosive, or flammable materials, boiling/hot liquids or solids, injurious radiation or other similar hazards. Due to the hazardous effects of laser pointers or any other device emitting a laser-type beam, such objects will be strictly prohibited on school property or at school-sponsored activities.

ASSEMBLIES AND PROGRAMS

Assemblies are provided on a regular basis to support the educational program and provide enjoyment for our students. Any misbehavior during an assembly will result in a student's immediate removal and ineligibility to attend all future assemblies and programs. Any student removed from an assembly will be suspended from school for a minimum of one entire school day.

ATTENDANCE

Philosophy

Halfway Junior/Senior High School's education program is designed based on research that reveals that there is a direct relationship between daily attendance and student achievement. The student who is frequently absent misses class instruction, discussion, and social interaction that cannot be made up even if the written work that was missed is completed. Research also demonstrates that students who are frequently absent have lower grades than what their academic aptitude indicates they should. Ensuring that a student maintains regular attendance requires a cooperative effort by student, parent(s)/guardian(s), and school personnel. Regular and punctual patterns of attendance are expected of each student enrolled in the school district.

Student attendance affects the student's behavior, attitude, learning, and overall success in school. We hope parents will talk with their students about their attendance and encourage regular attendance. We believe that schools can make a positive difference in a student's secondary school career. Because we believe students' success is of utmost importance, we want students to know that his/her attendance counts. *All transcripts will*

include a copy of a high school attendance profile showing the number of absences. We want colleges/trade schools and employers to know they are getting students with the advantage of regular attendance when they admit/hire them.

Policy

A student will be allowed a maximum of 56 hours absent from school per semester. Students who are absent more than 56 hours will be required to attend Monday School to make up excessive absences. If a student does not attend Monday School for excessive absences, they will not receive credits for the semester. No distinction will be made between excused and unexcused absences. All days absent from school will be counted toward the 56 hours allowed with the exception of days missed due to out-of-school suspension, school-sponsored field trips, and pre-arranged college visits. Providing professional documentation (doctor, dentist, lawyer, etc.-*All documentation is subject to administration verification*) for an absence will not excuse the absence but will be considered when determining exceptions. Exceptions to this policy will only be made due to extenuating circumstances, such as a long-term medical absence, as determined by the administration.

When a student reaches over 56 hours absent for the semester, the principal or school secretary will notify the student of the date(s) that Monday School will be available to make up the absence(s). A maximum of SIX Monday Schools per semester will be made available for students to use as makeup days. Excessive absences that cannot be made up in Monday Schools will result in loss of credits for the semester.

Notification of Absence

It is the parent's/guardian's responsibility to notify the school when their child is absent. The parent/guardian of the absent student is to call the high school office (445-2211) to inform the school that their child will not be in attendance that day. In addition, the parent/guardian must send a note with the student when he/she returns to school to inform the school of the duration and reason for the absence. The attendance secretary will maintain a daily record of all student absences. Notes from parents will be placed in the student's attendance file. Notification does not excuse the absence; however, it verifies that the student is not/was not truant. The 56 hours allowed by the policy are not to be considered free "skip days". Unverified absences will be considered as truancy and appropriate disciplinary action, as defined by the student discipline policy, will be administered. According to Board Policy, File JEDA, truancy is defined as students who are absent from school without the knowledge of and consent of their parents/guardians and the administration, or students who leave school during any session without the consent of the principal. Students may also be considered truant if they have accumulated excessive unjustifiable absences, even with the consent of parents/guardians.

Sign-In / Sign-Out Policy

Students who arrive late to school must report to the high school office to sign-in before going to class. Students who leave school during the school day or arrive to school after first hour has begun must sign in/out at the office. The principal or secretary must confirm parental permission prior to the student leaving school. Students who leave school without properly signing out or arrive late to school without a note or phone call from the parent will be considered truant and appropriate disciplinary action will be administered.

Make-up Work

It is the student's responsibility to meet with his/her teachers to receive the necessary instruction and assignments that were missed when absent. Parents may request make-up work when they call to report that their child will not be in attendance for a certain day. Parents can pick up the requested make-up work after 2:30 p.m. on the day requested. Students should consult their course syllabi to determine the teacher's make-up policy for each class.

BOOK BAGS

Due to safety concerns, all book bags are to be kept in the student's locker. Book bags may only be carried when coming to and leaving from school.

BUILDING HOURS

Students are not permitted on school property before 7:35 a.m. without the direct supervision of a staff member. Students are allowed to “walk and talk” in the main hallway until 7:51 a.m. Students have four minutes for transition between each class and are expected to use that time wisely in order to avoid tardiness to class. The last period of the day ends at 3:38 p.m. and students are not permitted to be in the building after 3:45 p.m. without the direct supervision of a staff member. Parents should not drop off or leave students at school during unsupervised periods.

BUILDING RULES

The Junior/Senior High School has a set of building rules that will be used by each teacher within the classroom. The following rules have been established to provide the students with consistency from classroom-to-classroom and from teacher-to-teacher.

1. All students should demonstrate respect for one another and tolerance of each other’s differences.
2. Students are not allowed to harm other students in any manner – physically or verbally.
3. Students will cooperate with the teacher and other students to make the class a comfortable learning environment.
4. All students should bring their required supplies to class everyday. This includes paper, textbooks and a writing utensil.
5. All students must be in their assigned seats before the tardy bell begins to ring, otherwise they will be counted tardy.
6. The teacher, not the bell, will dismiss students from class at the end of the hour.

BUS CONDUCT

The bus ride, to or from school, is an extension of the school day. All rules, regulations and policies that pertain to school also pertain to the bus. Only those students who meet eligibility requirements by means of permanent district residence will be permitted to use the school's transportation system. Any student whose conduct, attire, or personal belongings are improper or jeopardizes the safety of other students or the bus driver will have his/her transportation services suspended for such a time as deemed proper by the superintendent, principal, or administrative designee. Uniform rules of conduct and disciplinary measures will be consistently enforced (EEA Critical). The following rules will apply to students riding buses to and from school and all school-sponsored activities:

- 1) The driver, like the teacher, is in charge of his or her environment, has the authority to assign seats, call parents, and is encouraged to refer students to the building principal for disciplinary action.
- 2) All students must obey all bus rules and be respectful and courteous citizens while on the bus.
- 3) Riders must be on time to their designated bus stop. Students will not load or unload at a stop not authorized by the principal and/or superintendent.
- 4) Riders will not stand in the roadway while waiting for the bus.
- 5) Riders must never walk behind the bus.
- 6) Riders must never distract the bus driver in any way with unnecessary conversation, noise or unacceptable behavior.
- 7) Riders are to remain seated at all times, facing the front, with both feet on the floor in front of them.
- 8) Riders are prohibited from extending their heads, arms, hands, legs, feet or any other object out of the window. No objects may be thrown from the windows for any reason.
- 9) Food or drink products may not be consumed without the driver's permission.
- 10) Alcohol, illegal drugs, over-the-counter drugs, matches, lighters, and fireworks are strictly prohibited.
- 11) Instruments and book bags must be placed under the student's seat.
- 12) Pets or animals of any size are not allowed onto the bus without the principal's permission.
- 13) Fighting, "rough-housing", and horseplay will not be allowed.
- 14) Boom boxes, radios, tape and CD players, or other electronic devices will not be allowed.
- 15) Laser-beam devices will not be allowed on the school bus.
- 16) Obscene, vulgar, and socially unacceptable language, gestures or other activities either verbal or non-verbal, will not be allowed.
- 17) In the event that a student must ride home on a different bus with another student, a signed parent note must be submitted to the principal for his/her final approval and signature. Exceptions to this

rule will not be made.

- 18) Guests on bus will be limited to two unless arrangements have been made in advance with the principal and driver.
- 19) All other rules within the code of conduct apply to all students riding our buses.

BUS VIOLATION CONSEQUENCES

1st Offense	Principal conference with student and written warning.
2nd Offense	1 day bus suspension, parent contacted
3rd Offense	3 day bus suspension, parent contacted
4th Offense	5 day bus suspension, parent contacted
5th Offense	10 day bus suspension, parent contacted
6th Offense	Bus suspension remainder of semester, parent contacted

Please be advised the disciplinary code of conduct may supersede these consequences. The principal and/or superintendent are authorized to modify or even waive these steps depending upon the severity of the offense. The above-mentioned consequences are merely a guideline for imposing reasonable consequences. The rules listed above are not intended to include every violation. Incidents not listed above will be handled on an individual basis.

CAFETERIA

Each student is expected to practice general rules and proper manners in the cafeteria. Students must get permission from the principal or cafeteria supervisor before leaving the cafeteria for any reason. Students are personally responsible for any mess they have created during lunch. Food and drink products may not leave the cafeteria. Due to the district's use of the free/reduced lunch program, students are not allowed to bring outside food or drinks into the cafeteria, except for those that are prepared at home. Food and drinks wrapped/stored in commercialized containers are not allowed in the school cafeteria. Students are allowed to charge up to \$5.00 on their lunch accounts. Overcharges may result in the student receiving a peanut butter sandwich and milk instead of the regular meal.

Students may purchase a lunch from the school or bring their lunch from home. Students may also purchase breakfast at school. Students are not allowed to bring food to the cafeteria or have food delivered to the cafeteria from places other than home. The State Department of Education has informed the district of liability issues associated with this practice. Each student will be issued a lunch card at the beginning of the school year. Failure to abide by the above procedures will result in disciplinary action.

CARE OF SCHOOL PROPERTY

Students are expected to take reasonable care of all school property, which includes lockers, books, equipment, furniture, and athletic uniforms. Students shall pay for damaged or lost school property. The principal and/or superintendent in accordance with fair market-place values shall assess payment. Any student who carelessly, intentionally, or maliciously defaces or damages school property shall be required to replace or repair the damaged property and may also be subject to disciplinary and legal action as deemed appropriate by the school's administration (JFCB Critical). See also VANDALISM.

CAREER CENTER STUDENTS

Students participating in programs at the Dallas County Technical Center can earn a maximum of three practical arts credits per school year towards graduation. Students who complete the required English and Math program through DCTC can earn one English and one Math credit towards graduation. Students planning to attend college and/or needing to meet NCAA requirements should enroll in additional English and Math courses at Halfway High School. Students are expected to be knowledgeable regarding these requirements. DCTC enrollment is open to Jr/Sr students only. All students who plan to attend must plan their schedules so that all required courses (see graduation requirements in this handbook) are concluded by the end of their Soph. year (new requirements for graduates of 2010 and thereafter). The only exceptions are English III, American

Government/Personal Finance and math. Students who enroll in DCTC should be aware that they are making a commitment to complete a two-year program.

CELL PHONES

The use of cell phones during the school day has become increasingly problematic for the instructional environment. Offenses such as cheating, bullying, harassment, promotion of violence, and child pornography have become everyday occurrences. Many of these offenses are criminal in nature. The district strongly recommends that parents monitor their child's cell phone usage for their child's protection and safety. Most phone service providers can provide monthly records of usage, and some provide internet access to text messages that have been sent and/or received. This has become a matter of safety over privacy when it concerns minor children. Please be aware of the risks involved and protect your child.

Cell phones can only be used before school and at lunch. The phone must remain on silent during these times. **Taking pictures or videos with cell phones anytime during school hours is STRICTLY prohibited. The use of cell phones is STRICTLY prohibited during class time, in locker rooms, or while students are in the bathroom. This includes texting and messaging. Cell phones are to be turned off and not at all visible during class time.** Cell phones that are seen while out in class will be confiscated by school personnel. School personnel will also have students leave phones in the classroom if a student asks to use the restroom. First offense will result in phone being confiscated by school personnel and then returned at the end of class. Second offense will result in phone being confiscated and sent to the office and the student will serve one 8th hour after which the phone will be returned to the student.. Subsequent offenses will result in confiscation of the phone only to be returned to a parent/guardian and/or further disciplinary action such as ISS or OSS or complete loss of privilege of having a phone at school.. If you need to contact your child during school hours, please call the high school office. We will be glad to give a message to your child or call your child to the phone in case of an emergency.

CHANGING CLASS SCHEDULES

In the event that a student needs to change his/her schedule, the following criteria and procedure should be followed.

1. All schedule changes must be completed within the **first two days** of the semester. Specifically, this means by 3:38 on the **second** day of the semester. (A schedule change is complete when the paperwork is signed by the required teachers and the student's parent and turned into the counselor.)
2. Students who desire to change their schedule should go to the counselor's office on the hour they want to change. Students must check in with their teacher, get a yellow "Corridor Pass", and then proceed to the counselor's office.
3. Students must obtain signatures from the teachers of the classes they are dropping, the teacher of the class they are adding, and their parent(s).
4. Students are not allowed to transfer into year long classes at the beginning of second semester. Exceptions may be made at the principal's discretion.
5. **Withdrawal from any class is only possible during the first two days of the semester. This includes dual credit courses/dual enrollment/etc. In some cases, students are required to be enrolled for an entire school year in order to get credit for a semester; withdrawal is only possible during the first two days of the course.**

Schedules will not be changed after the **second** day of each new semester. Exceptions will not be made without the principal's and/or superintendent's permission.

CLASS RANKINGS

In the interest of encouraging and recognizing outstanding academic achievement, students will be recognized in the following manner: (IKC-R Basic) The 11 point grading system that is used regularly will be converted to a 4.0 scale to determine class rankings.

1. All students with a GPA between 3.9 – and above will be recognized with the honor of “Summa Cum Laude”.
2. All students with a GPA between 3.75 up to but not including 3.9 will be recognized with the honor of “Magna Cum Laude”.
3. All students with a GPA between 3.5 up to but not including 3.75 will be recognized with the honor of “Cum Laude”.

Seniors must have been in attendance for no less than 3 full semesters of high school in order to be included in the class rankings.

Foreign exchange students will be excluded from class rankings.

CLASSIFICATION OF STUDENTS

The following guidelines will be used in determining a student's classification:

Freshman	01-05	Units of Earned Credit
Sophomore	06-11	Units of Earned Credit
Junior	12-17	Units of Earned Credit
Senior	18-25	Units of Earned Credit

CLOSED CAMPUS

Once a student arrives on school grounds, they are not allowed to leave school grounds without authorization from the administration. When leaving school grounds students must have parent/guardian permission and must sign-out in the high school office. Students who leave school grounds without signing out or without parent/guardian and administrative permission will be subject to disciplinary actions.

COLLEGE VISITS

Juniors and Seniors will be allowed two college visits during the school year. College visits must be pre-arranged through the counselor's office. It is the student's responsibility to inform their teachers that he/she will be absent from school due to a college visit. Make-up work should be completed prior to the absence or at the teacher's discretion. It is recommended that students utilize Mondays for college visits.

COMMUNICATION WITH TEACHERS/STAFF

Communication between each student's parent(s) and the teachers and staff is encouraged. During school hours, parents needing to reach teachers or staff may call the HS secretary to leave a message. Parents who are unable to contact their child's teacher(s) during regular school hours may leave a voicemail for the teacher with their question and a time the teacher can return their call. Parents may also email teachers. Teacher emails can be found on the school website. An automated answering service answers the school phones from 4:15 p.m. until 7:15 a.m. Once the automated system answers, you may dial the extension and that will transfer you to voicemail. Please allow 24 hours for a teacher to respond via phone or email.

CONDUCT IN GENERAL

We expect our students to be role models for the younger students in our school. ANY conduct, which distracts or disrupts the educational climate and mission of the school is not acceptable and will not be tolerated. Our students will be expected to have dignity and demonstrate respect and courtesy while attending school or school-sponsored activities. Misconduct will not be tolerated. Students who violate this rule will face disciplinary action as deemed appropriate by the building principal.

CURRICULUM

Students and parents should be actively involved in the process of planning students' courses that will be taken to ensure that the requirements for graduation are being met. In addition, those students who are interested in specialized programs such as vocational-technical programs, work release, and other specialized programs should make sure that the necessary credits are earned during the student's freshman and sophomore years. It is advised that all freshman, sophomores, and juniors take the proper math, science, English, and social studies classes (American history and American Government must be included). In addition to their requirements, freshman and sophomores are advised to complete their fine arts, practical arts, P.E. and health requirements especially if they plan to participate in specialized programs during their junior and senior year. Information pertaining to curriculum planning can be obtained through the high school counselor.

DISMISSAL PROCEDURES

The Halfway School district is legally responsible for the safety of its students during the school day. The principal must ensure that students are released from school only for valid reasons and/or only to an authorized person. Students will not be released from school without written parent/guardian permission. Telephone requests will be honored only if the principal or secretary can recognize the parent/guardian. Students will not be released from school for any reason without prior parent approval. The principal is authorized to verify a parent's signature by actually contacting the student's parent or guardian (JEDB Basic). See ATTENDANCE POLICY.

DRESS CODE – SCHOOL DAY & ALL SCHOOL-SPONSORED ACTIVITIES

Students are expected to display personal cleanliness, neatness, and appropriateness of attire at all times and at all school-sponsored activities. Decisions regarding appropriate attire will be based upon the following guidelines with the basic premise that clothing must not be disruptive to the educational environment. Clothing cannot, in any form advertise, support, or suggest the usage of tobacco products, alcoholic substances, or illegal drugs. Clothing cannot display or suggest inappropriate language or graphics of a sexual nature, or anything else that conveys an unacceptable or disruptive message, including gang affiliation. Sunglasses or any other non-prescription eye covering is strictly prohibited. Chains hanging from clothing will not be allowed. Straps on shirts and dresses must be no less than one-inch wide. No deep armhole shirt, unless another appropriate

shirt is worn underneath, will be allowed. No midriff tops (no skin should show between shirts and pants). Skirts and shorts must be of appropriate length with no inappropriate slits in skirts. House slippers/house shoes are not allowed for safety reasons. Undergarments should not be visible at any time. Students taking physical education are required to wear appropriate and safe attire as determined by the physical education teacher. "Street" shoes will not be worn on the gym floors. Students will not be allowed to wear face paint during the school day.

Students wearing unacceptable attire will be asked to correct the problem or the administration will provide appropriate clothing. Repeated offenders may face additional disciplinary actions for insubordination. Any article of clothing that presents a health or safety risk will not be allowed and will be confiscated immediately. Obviously these rules and regulations do not completely cover this subject of good dress and grooming. Questions or problems that arise will be left to the judgment of the principal.

DRESS CODE – FORMAL ATTIRE

It is understood that school-sponsored events that involve formal dress require a different dress code than the regular school day and normal school-sponsored activities. Teachers and/or advisors will inform students when formal dress is required. Only for designated formal events will students be allowed to vary from the regular dress code. The guideline concerning one-inch straps will be suspended for formal events. The guidelines for formal attire include, but are not limited to: no bare midriffs are allowed; undergarments may not show; skirts and dresses must be of an appropriate length; no inappropriate slits in dresses/skirts. In addition dresses must cover the back from the waist down. As with the regular policy, these rules and regulations do not completely cover this subject of dress and grooming. Questions or problems that arise will be left to the judgment of the principal.

DRIVING TO SCHOOL

Driving and parking on school property are privileges, not rights. Only students who are legally licensed and appropriately insured will be authorized to drive their cars to school. Drivers must adhere to all laws applicable to Missouri streets, roads, and highways. Students must submit a completed Student Driving Contract in order to drive to school. The Student Driving Contract should be returned to the high school office by the end of the first full week of school. Driving privileges will be denied to any student not meeting each of the expectations for responsible driving as outlined in the Contract. Students should not arrive to school before 7:30 a.m. without faculty approval. Students are not allowed to congregate in the parking lot before, during, or after school. Students shall not go to their cars for any reason during the school day without administrative approval. DCTC students shall not drive to DCTC without administrative approval. Students must park in the north student lot in an orderly manner. Parking guidelines include: vehicles must be parked perpendicular to the highway, vehicles must be completely between the sidewalks and not blocking them in any fashion, and vehicles must not park in front of any no parking signs. Vehicles cannot be moved to a different location, including near the gym or baseball field, during or after the school day without prior administrative approval. Students who park in front of "No Parking" signs are subject to being towed at their own expense. The "No Parking" signs are in place to allow for necessary school bus traffic and parking. Students who violate these rules may lose their driving privileges for a designated time.

DUAL ENROLLMENT

Qualified students (see school counselor for GPA requirements) who are regularly enrolled may be authorized to take courses for college credit while completing high school requirements for graduation. Most institutions have prerequisites for high school students; therefore, interested students should see the counselor before the academic year begins. Students who are involved in dual enrollment courses offered online are solely responsible for all costs incurred from college enrollment, including but not limited to tuition, books, materials, supplemental fees, etc. Students who enroll in online dual enrollment classes must enroll for a specific class period and complete all work during that assigned hour. The grade reporting cycles for these courses may be different from regular in-house courses. **Withdrawal from such courses is only possible during the first two days of the school semester regardless of when the college course begins.**

EIGHTH HOURS

As a consequence for inappropriate behavior students may be assigned an eighth hour. Eighth hours are held from 3:40 p.m. to 4:10 p.m. and are supervised by a teacher. Students must adhere to the rules for detention (See GENERAL RULES FOR ALL DETENTION SITUATIONS). Students who do not attend an assigned eighth hour will be required to attend the missed eighth hour and an additional eighth hour. If a student misses either of these eighth hours, a day of in-school suspension will be assigned. Students are responsible for obtaining transportation home from school following an eighth hour. All students must be given 24 hour notification prior to being assigned an 8th hour. The student will have the option to waive the 24 hour notice if they choose.

ELECTRONIC OR BATTERY OPERATED DEVICES

Use of or visibility of cellular telephones, beepers, pagers, radios, stereos, tape/CD players, video games, laser pointers, laser beams of any type, and other audio-visual equipment is strictly prohibited during school hours. Use or visibility of these devices (and others not listed herein) will result in confiscation and will be returned only to a parent/guardian. After the first offense, there may be consequences assigned to the student.

EMERGENCY EVACUATION DRILLS

Emergency drills will be conducted routinely throughout the school year. Students will be expected to remain orderly and extremely quiet during the drills. Students shall not run, push, shove, yell, or talk loudly during the drills. Students who misbehave during an emergency drill will be referred to the principal for an automatic suspension from school. A FIRE drill will begin with several short rings of the bell. Listen for the teacher to direct you to the nearest designated exit. Once outside the teacher will take roll and will report any absences to the principal and/or administrative designee. Please remain quiet and wait for detailed instructions. A TORNADO drill will begin with one very long ring of the bell. The teacher will then direct you to the designated shelter area where you are to crouch and cover your head against the interior wall. Students shall not talk or create any disruption during the drill. Students are to assume the correct drill position until the "all clear" is given by the administration. In the event of an EARTHQUAKE, BOMB THREAT, OR ANY OTHER CRISIS, students should listen carefully for the teacher's instructions. It is our expectation that students will take each drill seriously and will understand the evacuation procedures and escape routes.

EMERGENCY SCHOOL CLOSINGS

Should it become necessary to close any or all of the district's schools by reason of weather, plumbing, electrical, or transportation problems, the superintendent of schools has the authority to do so in a timely and efficient manner. Notifications regarding school closings will be made via School Reach.

EXCESSIVE DISCIPLINARY REFERRALS –(10 or more disciplinary referrals, excluding tardies)

Students are expected to follow the rules and procedures set forth by the school board, administrators, and staff. Repeated failure to comply with these will result in serious disciplinary actions.

Once a student has received 10 or more disciplinary referrals (excluding tardies), he/she will automatically be referred to the superintendent for disciplinary action and could be subject to long-term suspension or expulsion.

EXTRA-CURRICULAR ACTIVITIES – ELIGIBILITY

To be eligible to participate in any extra-curricular activity/organization, students must meet the following guidelines:

- 1) The student must be enrolled and attending Halfway R-III Schools before he/she becomes eligible to participate in extra-curricular activities.
- 2) Any student who participates in extra-curricular activities must have passed 6 of 7 classes the preceding semester (3.0 units of credit).
- 3) Students cannot have any failing grades at grade check. **If a student has any "F's" at grade check, that student will be ineligible until the next grade check (approximately 4 weeks). Grade checks are as follows: progress report (September), mid-term (October), progress report (November), 1st semester (December), progress report (February), mid-term (March), progress report (April), and**

2nd semester (May).

- 4) Students must meet all applicable requirements of the MSHSAA (if the activity is a MSHSAA sponsored activity).
- 5) Students must attend a minimum of four entire class periods on the day of a scheduled school-sponsored activity, contest, practice, or meeting. Students with an unverified absence or who are truant will not be permitted to participate in extracurricular activities for that day.
- 6) Students must adhere to all school rules and policies while participating in extracurricular activities.
- 7) Students must display a positive attitude and excellent citizenship/sportsmanship at all times while participating in extracurricular activities.
- 8) Students must attend school on a regular basis. Coaches and activity sponsors will routinely check the academic and citizenship status of their students throughout the school year and especially during the scheduled season of competition. Exceptions to this policy will not be made without the Board's approval.
- 9) Coaches and sponsors of extra-curricular events may have additional requirements for participation and/or continued participation.

EXTRACURRICULAR ACTIVITIES – STUDENT ATTENDANCE

Students are encouraged to attend all extracurricular activities in which Halfway Junior/Senior High School is involved. Students are expected to follow the same guidelines for behavior and dress as during the regular school day, with the exception that students may wear hats at extracurricular sporting activities. Any student who leaves an extracurricular activity or event will not be permitted to return unless the student has received prior administrative approval to do so.

EXTRA-CURRICULAR ACTIVITIES – TRANSPORTATION

It is the intent of our school district to provide adequate transportation for all students participating in school-sponsored activities. Students are REQUIRED to utilize the transportation provided by the school district to and from all activities. In the event that a student cannot ride the school bus to a school activity, a parent or guardian must contact the principal prior to the departure time. Students will not be permitted to ride with another student to a school-sponsored activity. In order for students to ride home from a game with another parent, there must be written parental permission followed up with a phone conversation with the coach or sponsor. Students may ride home from an activity with their parents. The parent must personally contact the coach or sponsor and sign out his/her child if the child will not be riding the bus back to school after the event.

In the event that a student misbehaves while attending a school-sponsored activity, parents will be contacted and expected to provide transportation home for their child.

FALSE ALARMS

Tampering with emergency equipment, setting off false alarms, making false reports, communicating a threat or false report for the purpose of frightening, disturbing, disrupting, or causing the evacuation or closure of school property.

1st offense – restitution, principal-student conference, detention, ISS, 1-180 days OSS, expulsion

2nd offense – restitution, ISS, 1-180 days OSS, expulsion

FIELD TRIPS

Students who are eligible to attend school-related field trips must have a consent form completed and signed by a parent/guardian. It is the student's responsibility to inform his/her teachers that they will be attending the field trip. All assignments must be completed in advance or at the teacher's discretion. In the event that a child misbehaves while attending a field trip, parents will be contacted and expected to pick-up their child from the field trip location. Teachers and administrators may set additional eligibility requirements for field trips; one example might be that students may become ineligible for a specific field trip if they have received disciplinary office referrals. Students misbehaving on field trips will be ineligible to attend future field trips and may face additional disciplinary action as determined by the teacher and/or principal.

FINALS

Halfway Junior / Senior High School requires all students to take a final in each class at the end of each semester. The finals assess the curriculum objectives covered in the class during that semester and possibly the previous semester. The finals will be comprehensive in nature and will be in a format similar to MAP/EOC tests. Teachers are also encouraged to give quarter finals if appropriate.

FOOD AND DRINK

Eating and drinking in class can be a distraction from the learning process and can cause additional cleaning expense, wear, and tear on the facility. No food, drink, or candy is to be sold during the school day. Exceptions to this rule may be approved for fundraising efforts for extracurricular and co-curricular activities. Food and drink distractions will be addressed by the principal as needed.

FREE AND REDUCED LUNCHES

Eligible students, as determined by appropriate school officials based upon guidelines established under the national school lunch program, will be provided nutritionally acceptable meals at no cost or at a reduced cost. Names of students who participate in these federal programs will be kept confidential. Qualified students interested in these programs should have their parents complete the necessary application forms. These forms should be submitted to the principal as soon as possible (EFB Critical). They can be found at the back of this handbook.

MONDAY SCHOOL

Students who are attending Monday School must be in attendance from 9:00 a.m. to 2:00 p.m. Students who are not in attendance the entire time will not receive credit for the work that they were to make up and that day will not be counted as a make-up date for excessive absences. The school will provide a sack lunch and milk during Monday School for those students who would like a dinner. Students may bring a sack lunch from home; however, students MAY NOT have food delivered to them. Students must adhere to the rules listed under detention rules. Any student assigned a Monday school will not be permitted to participate in extracurricular activities during the Monday school. Also, students who elect to skip a Monday school will also be ineligible to participate or attend extracurricular activities on that date. Students will be given 48-hours advance notice when assigned a Monday school.

Students may attend Monday School to make-up assignments missed due to excessive absences or may be assigned Monday School as consequences for inappropriate behavior. It is the student's responsibility to inform the principal that he/she will be attending Monday School for excessive absences. If a student is serving Monday School for attendance makeup, it is his/her responsibility to collect the makeup work and bring it to Monday School. The student should inform the principal before the end of the day on Wednesday of the week the student will be attending. All Monday Schools must be served by the end of the semester. Attendance makeup days may not carry over to the following semester.

FUNDRAISING ACTIVITIES

All fundraising activities must be pre-approved by the sponsor and principal and must be scheduled on the master calendar. Fundraising activities shall be limited to four school weeks. Monies gained from fundraisers must be used for educational activities and events.

GENERAL RULES FOR ALL DETENTION SITUATIONS

Students who fail to adhere to detention rules will receive further disciplinary action.

GRADE REPORTING

Students will receive grade cards at mid-semester and end of semester. **Approximately every 4 weeks** reports are sent to those students receiving failing grades at that point. Teachers are encouraged to notify parents whenever a child's grade drops to a "D" or "F". Parents are encouraged to maintain routine communication with their child's teachers concerning academic progress and citizenship. **Parents are also encouraged to utilize the Parent Portal to access student grades on-line.**

The grade reporting cycles for on-line courses, dual enrollment courses, e-school courses, and other out-of-house courses may be different from regular in-house courses. Students enrolled in these courses need to remain in contact with their instructors.

GRADING SYSTEM

The following grading scale will be used in the evaluative procedures appropriate to the instructional level of the students

	A	4.0	A-	3.67

The student and parent will then sign a release form informing them of the Board Policy IKFA. The policy states the student who chooses early graduation will be allowed to participate in the spring graduation ceremonies but will be considered an alumnus for all other activities. The student will receive a diploma if the student has met the Halfway R-III School District's graduation requirements.

ILLNESS AT SCHOOL

Students who become ill during the school day will be referred to the school nurse (located in the elementary school). The school nurse will determine if a student should be sent home. In the event that a student is sent home due to illness or injury, a guardian will be notified immediately. Students may not leave the school without guardian permission given to the school nurse. Students are not authorized to contact guardians for early release without the nurse's or administrator's permission. No medications, either prescribed or over-the-counter, will be administered without parent approval via school's standing orders or prescription / note from a physician. ALL medications must be kept in the nurse's office. The nurse will dispense all medications as prescribed by a physician or pharmacist. The nurse is not authorized to dispense aspirin products without parent permission.

IMMUNIZATION OF STUDENTS

Refer to Nurse's Office Policy.

IN-SCHOOL SUSPENSION (ISS)

In-School suspension may be assigned as a consequence for inappropriate behavior. Students must report to the assigned location with their books, paper, and a writing utensil. The students will remain in ISS, following the ISS rules, for the duration of the assigned time. Lunch will be delivered to the student in ISS and regular restroom and water breaks will be given.

In the event that a student is absent from school on a day that they are assigned to ISS, the ISS will be served the day that they return to school. In addition, if school is not held on a day that ISS is assigned, the student will

serve ISS the first day that school is back in session. Students will not be allowed to leave for work release on the day that they have been assigned ISS.

INSTRUCTION IN HUMAN SEXUALITY

Several courses in high school touch on issues concerning human sexuality. Abstinence, medically factual information about contraceptives of all forms, seriousness of sexually transmitted diseases, emotional and psychological consequences of preadolescent and adolescent sexual activity, conflict management, personal responsibility, the laws pertaining to financial responsibility to children born in and out of wedlock, and laws on statutory rape are some of the issues that may be covered. Parents may opt to remove their child from any part of the human sexuality instruction.

INSUBORDINATION

Any student refusing to comply with a faculty or staff member's reasonable request or directive will be considered insubordinate. Insubordination includes not following directions, not attending to learning tasks, and not displaying respect. Insubordination occurs when a student is told more than once to do something. Teachers will contact parents when students are insubordinate. Continued insubordination will result in disciplinary action as determined by the principal.

INTERNET USAGE

Access to the school's computers, the electronic network, the Internet, and all district software, is a privilege and not a right. This privilege may be revoked at any time for abusive or malicious conduct. Students using the Internet accept the responsibility of keeping all inappropriate files, or files that could damage the reputation or the integrity of the school district from entering the schools via the Internet. According to the Halfway R-3 Acceptable Use Policy, the following are not permitted:

- Sending or displaying offensive messages or pictures
- Using obscene language
- Harassing, insulting, or attacking others
- Damaging computers, computer systems or computer networks
- Violating copyright laws

Students violating the Internet access policy will face disciplinary action as determined by the principal and/or superintendent.

LIBRARY MEDIA CENTER

The library/multimedia center is provided for students' academic and personal enrichment. Care should be given to all books, periodicals, equipment, computers, printers, and furniture. Students will be expected to pay for all lost or damaged materials. Student behavior in the library must be exemplary as others are there to learn. The librarian has the authority to maintain order and discipline students as necessary. Please consult the librarian for specific checkout procedures, library rules, and Internet access procedures.

LOCKERS

Lockers are the property of the school district and are provided for students' convenience. Each student will be

assigned a locker at the beginning of the school year. Once a locker has been assigned, students may not change without permission from the principal. Students are responsible for the contents of the locker to which they are assigned. Lockers must be kept neat, clean, and well-organized at all times. Lockers with unauthorized locks will be removed. Lockers will be subject to periodic searches without warning. The school district shall not be held responsible for any items that are lost or stolen from lockers (both gym lockers and school lockers).

LOST AND FOUND

Lost items will be taken to the principal's secretary. Please check in the office for lost items. You will be asked to describe the lost item, in detail, before claiming it.

MEDICATION POLICY

Please refer to Nurse's Office Policy.

MISSOURI SAFE SCHOOLS ACT

It is very important for every student and parent to know that provisions of the Safe Schools Act require the Halfway School District and other districts in the state of Missouri to share discipline records when a student transfers to another school district and to make that information available to law enforcement agencies when required. It is also important to note that some disciplinary offenses must be reported to local law enforcement.

MISSOURI SCHOOL VIOLENCE HOTLINE

The Department of Public Safety – MO Juvenile Justice Advisory Group provides a free public service for reporting school violence. Tips on school violence or possible school violence may be reported or texted anonymously to 1-866-748-7047. The hotline is available 24 hours per day, 7 days per week.

NOTICE OF POLICY PROHIBITING SEXUAL HARASSMENT

The school district is committed to providing an environment free from intimidating, hostile, or offensive behavior; unwelcome sexual advances, requests for sexual favors, and other verbal/non-verbal, physical conduct or communication constituting sexual harassment. Sexual harassment by an employee, student, or other person in the district against any person is strictly prohibited. Allegations of sexual harassment shall be investigated and, if substantiated, corrective disciplinary action taken, up to and including suspension, and/or expulsion of the student or suspension and/or termination of the employee (AC Critical). Please refer to the school's administration and Board Policy AC-R Critical for resolution of discrimination complaints.

NURSE'S OFFICE POLICY

Please read the following information carefully:

Parent/Guardian will be notified by phone if their child is exhibiting illness symptoms or is injured at school and needs to be taken home or for medical evaluation. It is very important that the school has the most current phone number and address for parents along with emergency contacts and phone number(s) in the event a child is ill or injured.

A current student health history form will be kept in the nurse's office to ensure adequate and prompt care.

Pertinent health information may be shared with appropriate personnel for health and educational purposes. Please notify the school nurse of any change in medication and/or health status of your child.

Your child may be screened for vision, hearing, height, weight, blood pressure, and speech during the school year.

The health office will have emergency Benadryl, Epi-Pen, Asthma rescue medication, and Narcan available for use in a life-threatening emergency including allergic reaction, anaphylactic reaction, acute asthmatic episode, or suspected drug overdose. These medications will be administered by the school nurse or trained employee in accordance with written protocols signed by a licensed physician. Parent/Guardian will be notified **AFTER** administration of emergency medications. If Epi-Pen or Narcan is administered, 911 will be called first, then Parent/Guardian will be called.

If your child's allergy requires **food** modifications, please ask the nurse for a "special meal form" that is to be completed by the child's medical provider.

IMMUNIZATIONS

In accordance with the Missouri School Immunization Requirements, to attend school, all students must have received, be in compliance with, and provide satisfactory evidence of the minimum number of immunizations required. If the student is exempt from immunizations, the required documentation form must be provided.

Children will be required to be adequately immunized at the time of entrance to school. Failure to comply with requirements will result in exclusion from school until proof of compliance is provided.

Students may continue to attend school if the immunization process has begun and is progressing on a schedule as recommended by the Department of Health.

COMMUNICABLE DISEASES

Students and staff are not to attend school while afflicted with any known contagious or infectious disease, or while liable to transmit such disease after having been exposed to it. School personnel may require any student to be examined by a physician if they believe the student can infect others. The student may be excluded from school until a physician determines the child cannot infect others, or until a recommended exclusion period has passed.

Students or staff with communicable diseases should not be allowed to attend or work in a school or childcare setting until they are well. By enforcing the state communicable disease regulations, excluding students who are ill, and promptly reporting all suspected cases of communicable disease, personnel working with students can help ensure the good health of the students in their care.

If your child has an elevated temperature of 100 degrees or more, he/she should remain home until they are fever free for 24 hours without the use of fever-reducing medication, such as acetaminophen/Tylenol and ibuprofen/Advil, since he/she may remain contagious to others. If your child has diarrhea or is vomiting, he/she needs to remain home until they have not had diarrhea or vomiting for 24 hours.

Exclusion days related to fever or other illness symptoms may be changed as recommended by the Polk County Health Center & Department of Health, in accordance with the CDC, due to pandemic recommendations.

HEAD LICE CONTROL

Head lice infestations can be prevalent in the school population. While lice infestations are not life threatening, the bites can cause severe itching and in extreme cases may cause secondary infections. When a number of head lice cases occur in a school, it takes a significant amount of time away from the classroom and educational program.

If head lice are found at home, please contact the school nurse so the class can be checked – thereby helping decrease the chance of further infestations. If the nurse discovers head lice, the parent/guardian of that student will be notified, and other students who reside with the infected student will be checked. If children are not properly treated, including complete removal of nits, re-infestation may occur. In order to protect our classroom time, we are following a “no nit” policy. All students found to have evidence of a head lice infestation (lice or nits) will be excluded from school attendance until treated and all nits have been removed. Parents/guardians can be given written materials that explain methods to treat the infestation on the hair and in the home. There are several products on the market/over-the-counter for treating head lice. There are also head lice treatments that require a physician’s prescription, but that will be the parent/guardian’s choice.

If a student is infected with head lice/nits, the student should not return to school until the next day after the discovery of the head lice to allow for treatment. When a student returns they **MUST** be accompanied by a parent or guardian and will be screened by the school nurse before returning to class. If head lice/nits are found at that time, the parent/guardian will again be given instructions and the student will be excluded from school until the next day to allow for additional treatment. This process will continue until the student is free of head lice/nits. Students are **NOT** to be sent back to school on the bus without being checked by the nurse. Children who have been excluded and returned to school will be re-examined in 5-10 days to ensure that they remain free of infestation.

General head lice screenings may be done at the beginning of each semester as well at other times during the school year if needed.

SOILED CLOTHES PROCEDURE

Students are to change out of soiled clothing as soon as possible. Students will not be permitted to sit in soiled clothing all day. This policy is intended to prevent the spread of infectious organisms as well as the overall health of the student.

MEDICATION POLICY

With the exception of students in special education programs, or those with Section 504 accommodation plans, the school district is not obligated to supply or administer medication to children.

The purpose of administering medications in school is to help each child maintain an optimal state of health to enhance his or her education. Medication should be limited to those required during school hours and necessary to provide student access to the educational program.

The intent of these medication guidelines is to assure safe administration of medications for those children who require them.

All medication administration will be supervised by the school nurse in the health office or by a trained school employee.

All medication orders shall be renewed at the beginning of each school year by the child's physician. Changes in medication shall have written authorization from the licensed prescriber.

Medications should be limited to those required during school hours and necessary to maintain the child in school.

Student medications, prescribed and over-the-counter, will only be administered with written consent on a completed and signed consent form by the parent/guardian. Consent must be given/received prior to administering medication.

Students having medication in their possession may be subject to disciplinary action.

I. Prescription Medication

- All prescription medications given in the school setting shall be prescribed by a licensed medical prescriber on an individual basis as determined by the child's healthcare provider. A Medication Authorization Form shall be completed by both the parent/guardian.
- Medication prescribed by a medical provider must be in a prescription bottle with the prescription label, and should include the student's name, date of medication prescribed, name of medication, administering instructions, and name of prescriber. Your pharmacist can give you an extra-labeled prescription bottle to use for medication sent to school. The prescription label will be considered the equivalent of a prescriber's written order/direction, and a separate document is not needed from the provider.
- The district will not administer the first dose of any medication. The school nurse will not, without clarification from the prescriber, administer any medication if the dosage exceeds the recommendations of the manufacturer.
- The parent/guardian will supply the medication in a properly labeled container from the pharmacy, with only those doses to be given at school, and with any instructions for any special need for storage, i.e., refrigeration.
- Medication supplies should not exceed a thirty-day supply.
- Students are not allowed to carry any prescription or non-prescription medication on themselves at any time except wherein the child's health may be in jeopardy without it. See below:

II. Prescription Medication for self-carry and/or self-administration

Authorization for self-carry and administration of medications by the student will be done only in the exceptional circumstances wherein the child's health may be in jeopardy without it. Examples: emergency medications including inhalers, epinephrine auto-injectors (EpiPen), diabetic medications/supplies, epileptic medications, field trips, and

other school sponsored activities that are either not during the school day or off of school property. If medication must be self-carried and/or self-administered, it must be under the following conditions:

- The parent/guardian of the student must complete the Authorization For Self-Carry / Administration of Medicine At School form. This form must also be signed by the prescribing physician.
- The medication must have the prescription label with specific directions for administration.

III. Over-the-Counter (OTC) Medications

The school will use reasonable and prudent judgment in determining whether or not to administer any over-the-counter (OTC) medications.

- Outside of the school's medication standing orders, in accordance with the school's collaborating provider and signed consent by parent/guardian, NO over-the-counter medication will be given unless directed by a physician.
- Parent/Guardian must complete the parental consent for the administration of over-the-counter medication in school as approved by physician and provide the student's medical provider's information to obtain consent. Parent/Guardian may be required to provide any over-the-counter medications unless available through the school's standing orders.
- All over-the-counter medications must be brought in the manufacturer's original container with the child's name affixed to the container. All OTC medication brought to school must have an unexpired date clearly printed on the container or box.
- Medications must be age appropriate and will be dispensed as directed by physician and/or manufacturer's labeling.

III. Handling, Storage and Disposal of Medications

- **A parent/guardian shall deliver all medications to be administered at school to the school nurse or other person designated by the school nurse. NO MEDICATION SHALL BE TRANSPORTED ON THE SCHOOL BUS OR BY THE STUDENT. The medication must be in a pharmacy or manufacturer's labeled container.**
- Medication will be stored in a separate locked drawer or cabinet in the Nursing Office. Medication requiring refrigeration will be refrigerated in a secure area
- All medications shall be returned to the parent/guardian at the end of the school year (or the end of summer school if attending.) The parent/guardian will be responsible at the end of the treatment regimen for removing from the school any unused medication which was prescribed for their child. Medications not picked up by parent/guardian will be disposed of at the end of the school year.

OUT-OF-SCHOOL SUSPENSION (OSS)

Out-of-school suspension may be assigned as a consequence for inappropriate behavior. Students who are assigned out-of-school suspension may not participate in or attend any school activities (at home or at another

location) and may not be on school grounds at any time during their suspension (including weekends). A student must attend one day of school, following a suspension, in order to be eligible to attend school-sponsored activities. All students who are suspended or expelled are prohibited from being on school property or within 1000 feet of school property for any reason unless permission is granted by the superintendent or designee.

Students serving out of school suspension should ask teachers for the work that they have missed in order to keep up in class. The work will be graded, and they will receive only 50% of the points/credit earned on each assignment in all of their classes for the duration of their suspension. Tests will be graded at 100% point value.

Failing to meet the condition of suspension for an offense that requires reporting to law enforcement or for an act of violence/drug-related activity, etc. is a serious offense.

PARENT / TEACHER CONFERENCES

Parent / Teacher Conferences will be held in the fall of each school year. Parents of Junior/Senior High School students do not need to schedule an appointment with their child's teachers. The teachers will be available during the conference hours for walk-in visits.

PARENTS

The education of our students is a cooperative understanding between parents and the school. Please have your student in attendance every day possible. Communicate with the school and with your student's teachers for first hand information on your child's progress. Please approach school related activities, conferences and issues in a positive manner.

PARENT'S RIGHT TO KNOW

Our district is required to inform you of certain information that you, according to The No Child Left Behind Act of 2001 (Public Law 107-110), have the right to know.

Upon your request, our district is required to provide you in a timely manner, the following information:

- Whether the teacher has met state qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- Whether the teacher is teaching under emergency or other provisional status through which state qualifications or licensing criteria have been waived.
- Whether your child is provided services by paraprofessionals and, if so, their qualifications.
- What baccalaureate degree major the teacher has and any other graduate certification or degree held by the teacher, and the field of discipline of the certification.

In addition to the information that parents may request, districts must provide to each individual parent—

- Information on the achievement level of the parent's child in each of the state academic assessments as required under this part; and
- Timely notice that the parent's child has been assigned, or has been taught for four or more consecutive weeks by a teacher who is not highly qualified.

In addition -- Please be aware of the Every Student Succeeds Act of 2015 (ESSA) Complaint Procedures -- a guide is included at the end of this handbook which includes general information, directions, and appeals information.

PLAGIARISM

Plagiarism is defined as the act of stealing and passing off as one's own the ideas and/or words of another. It is also using another's work or production without crediting the source (Webster's Dictionary.) Plagiarism will be taken extremely seriously and consequences will be dispensed including a zero on the assignment.

POCKETKNIVES

Possession of a knife of any size by a student is strictly prohibited on school property. Possession of a knife with a blade of 3 inches or less is not necessarily a violation of the Safe Schools Act but is still considered a weapon on school property, and could be turned over to law enforcement depending upon its intended/suspected purpose.

Students must pass 5 of the 8 semesters in the 4 core courses (English, Math, Science, Social Studies) during the school year in order to be promoted to the next grade.

Students must also pass 4 of the 6 remaining non-core class semesters during the school year in order to be promoted to the next grade.

Students who are being retained because of not meeting the above criteria will have the option of attending and passing summer school or a pre-approved equivalent tutoring program to make up no more than 2 failing grades. If they do this successfully, they may be promoted to the next grade (IKE Critical).

RTI (RESPONSE TO INTERVENTION)

All students in grades 7 and 8 will participate in mandatory state testing to determine their basic skill levels in math and reading. Those students who are diagnosed to have sufficient deficiencies in one or both of those areas may be placed in RTI classes for specialized instruction to address those concerns. Regular progress monitoring will be used to determine when that instruction is no longer needed.

SECRET ORGANIZATIONS

The Board of Education prohibits the organization of school-sponsored fraternities, sororities, or other secret organizations wherein membership is determined by members themselves rather than on the basis of free choice (JFCE Critical).

SENIOR COMPOSITE

Halfway High School is proud to continue its tradition of hanging a composite of the graduating class in its hallowed hallways. New copyright laws and the loss of previous photographic services have made this process more challenging in recent years. Therefore, the district is establishing the following guidelines for senior composite pictures. Guidelines for Composite Photos:

- The photo and student should be vertical in orientation.
- The photo should look professionally done...no candid snapshots.
- The photo should include the senior only...no objects, hands, or background distractions.
- The pose should be a "head and shoulders only" shot.
- It should be a color photo.
- Senior should be dressed in school-appropriate attire.
- The photo must be submitted in wallet size (2.25" wide by 3.25" tall).
- The student's fall school picture may be used for the composite and will be used if another picture is not provided.
- Composite photos meeting these guidelines must be submitted to the senior class sponsors no later than December 15th of their senior year. The district will pay for the processing and framing of the composite and will proudly display it for future generations to enjoy.

SPORTSMANSHIP

Halfway Junior/Senior High School values good sportsmanship and spirited support for our school. We support the Missouri State High School Activity Association's (MSHSAA) mission, which "promotes the value of participation, sportsmanship, team play, and personal excellence to develop citizens who make positive contributions to their community and support democratic principles of our state and nation." We expect our players, coaches, students, parents, and fans to display high standards of dignity and respect at all activities. Student conduct must be in accordance with the rules and expectations outlined in the Student/Parent Handbook. We hope that everyone will maintain pride in self and school. Offensive and embarrassing behavior will not be tolerated. Those who violate this rule will lose their privilege to attend school-sponsored games and activities.

STATE ASSESSMENT

The Halfway R-III School District participates in Missouri Assessment Program (MAP) and End of Course (EOC) testing. All students who are enrolled in a grade level that takes an assessment are required to participate in the testing program. Any student who has an Individualized Education Plan (IEP) will take the assessment with the necessary modifications that are stated in the IEP.

SUMMER SCHOOL

Summer school courses may be available for high school students. Summer school may be available for students who need credit recovery in courses they have failed during the regular school year. Two ½ credits (or one full credit) may be granted each summer if credit recovery courses are completed successfully.

SURVEILLANCE IN THE SCHOOL

Students in school are subject to observation at every place in the school at all times and in all reasonable fashions. This includes, but is not limited to video cameras, computer checks, and locker searches.

TARDIES TO CLASS

A student is considered tardy if he or she is not seated in their assigned seat before the tardy bell begins to ring. Teachers may use discretion in special circumstances. Once a student has received his or her third tardy to any class, that student will be sent to the office for disciplinary actions.

4th Tardy – Two Eighth Hours, Parent Notified

5th Tardy – ISS, Parent Notified

6th Tardy – Two Monday Schools, Parent Notified

For each eighth hour missed, the student will have to make-up the original eighth hour plus one more or may receive ISS or Monday School. If a student fails to serve either eighth hour at this point, a Monday School will be imposed. Failure to attend an assigned Monday School for tardies will result in one day of OSS plus the Monday School still must be served. Students are expected to be punctual every period. For disciplinary purposes, tardies will start over at mid-term.

Students who arrive to class more than 5 minutes late must have a written excuse from a teacher, or they will be considered “Not at Assigned Location” and will face disciplinary actions.

TEACHER/OFFICE AIDES

The opportunity to be a teacher/office aide will be reserved only for seniors who have enough credits to graduate, have a proven record of leadership, trustworthiness, dependability, responsibility and integrity. The school counselor and principal will determine assignment/placement. Students will be limited to one aiding experience and must maintain a 2.0 grade point average and maintain 93% attendance in the previous school year. One unit of credit may be earned as an elective if all requirements are fulfilled.

Cellular telephones, pagers, beepers and other telecommunication devices are not to be used or visible during the school day without administrative approval.

TOBACCO/TOBACCO RELATED SUBSTANCES

All "snuff," "dip," "chew," smoking and/or vaping and similar substances will be treated as tobacco regardless of chemical composition.

TRANSFER CREDITS

Transfer credits will be evaluated and interpreted by the high school counselor. The Halfway R-III School District recognizes units of credit obtained through accredited schools, including credits earned through correspondence courses or courses delivered primarily through electronic media, such as satellite video, cable video or computer-driven or online courses. For the purposes of this policy, an "accredited school" is the Missouri Virtual Instruction Program (MoVIP); a private agency where students with disabilities are placed by a public school; or any school accredited by the Missouri Department of Elementary and Secondary Education (DESE), the North Central Association of Colleges and Schools (NCA), the Independent Schools Association of the Central States (ISACS) or the University of Missouri Committee on Accredited Schools Non-Public (CAS). If a school is located in another state or country, that school must be accredited by that state's or country's department of education, NCA, ISACS or the equivalent agencies.

Acceptance of transfer credits for correspondence courses delivered through these approved sources but taken outside of regular school hours will be limited to core subject areas only, with a maximum of 2.0 correspondence credit will be accepted. The courses must have been taken during the student's high school career. All MoVIP courses will be accepted as mandated by law.

TRUANCY

Students who are absent from school without the knowledge and consent of their parent/guardian and the administration, or students who leave school during the day without administrative consent, shall be considered truant from school. Students may also be considered truant if they have accumulated excessive unjustifiable absences, even with the consent of parents/guardians. Any work missed during truancy may not be completed for credit (JEDA Critical). If a pattern of truancy develops, the local juvenile authorities will be contacted immediately. See ATTENDANCE POLICY.

VANDALISM

Incidents of willful or malicious abuse, destruction, defacing, damage and/or theft of the school's property are clearly contrary to the best interest of the school district and injurious to the rights and welfare of the entire community. The Board shall seek all legal redress against persons found to have committed such acts. Students found guilty of willfully defacing, damaging, abusing, destroying, or stealing any school property will pay for all damages caused thereby, and may be suspended or expelled as provided by law. Depending upon the seriousness of the vandalism or theft, the action may be reported to the local law enforcement agencies (ECA Critical).

VISITORS

Any person not enrolled as a student in this school or employed as a staff member must report to the office upon entering the building. All classroom visitors must have prior administrative approval. No school age visitors will be allowed during school hours. Parents and patrons of the district are always welcome in our schools. They should check in with the office upon arrival. It is always best to schedule an appointment with the teacher(s) or principal ahead of time.

WEBSITE INFORMATION

The Halfway R-III School has a website that provides information about the school, staff, and activities. The website is located at <http://www.halfwayschools.org>.

WEIGHTED COURSES

Weighted courses provide students with an incentive to take advanced classes during high school. The grades are weighted as 1.20 instead of the usual 1.0. For example, a grade of B (3.0 on a regular scale) becomes a 3.6 on the weighted grading scale.

For a list of offered weighted courses, please check with the school counselor. All dual enrollment courses will be considered weighted classes. These courses were determined to be advanced courses that required intense study and critical thinking skills. In addition, the courses are predominately available to juniors and seniors. (revised by school board, 1-17-18) When offered, a student may take a dual credit course for high school credit only and will receive weighted credit.

WORK RELEASE

Students may earn a maximum of two credits towards graduation under the work release program. The work release program is open to seniors only unless approved by the board. Students must average a minimum of 10 hours of work per week per credit for the entire duration of the school year. All students in the work release program must be taking an approved Career Education class directly connected to their employment in order to be eligible for the work release program. All work release students will be under the supervision of the work release teacher-supervisor and their employer. All students who plan to participate in the work release program must plan their underclass schedules carefully (see GRADUATION REQUIREMENTS). They must also have maintained a 93% attendance rate in the previous school year. All grades will be assigned by the work release teacher-supervisor and will be based upon reports received from employers. Students involved in the work release program will not be permitted to stay on campus during their work release schedules without administrative approval. Work release students must either report to work or report home during their work release schedule. Being on school premises without administrative approval during work release time may result in loss of work release privileges. Should a student become unemployed during work release, he/she will be required to return to school and enroll in regular classes during the second semester and will not be granted work release again. If the unemployment occurs due to no fault of the student, the student may re-apply for work release for the next semester. Work release students are required to be gainfully employed in a career-oriented job that pays state and federal taxes and is covered by Workers' Compensation. If Workers' Compensation is not provided by the employer, the student and/or parents will be required to sign a waiver of liability for the district.

STUDENT DISCIPLINE

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, any aggravated circumstance of any offense, or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or Board of Education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on district property, including playgrounds, parking lots and district transportation, or at a district activity, whether on or off district property. The district may also discipline students for off-campus conduct that negatively impacts the educational environment, to the extent allowed by law.

It is the policy of the Halfway R-III School District to report all crimes occurring on district property to law enforcement including, but not limited to, the crimes the district is required to report in accordance with law. A list of crimes the district is required to report is included in policy JGF.

In addition, the superintendent shall notify the appropriate division of the juvenile or family court upon suspension for more than ten days or expulsion of any student who the district is aware is under the jurisdiction of the court.

Documentation in Student's Discipline Record

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools and in accordance with law and policy JGF.

Conditions of Suspension, Expulsion and Other Disciplinary Consequences

All students who are suspended or expelled, regardless of the reason, are prohibited from participating in or attending any district-sponsored activity, or being on or near district property or the location of any district activity for any reason, unless permission is granted by the

superintendent or designee. In addition, the district may prohibit students from participating in activities or restrict a student's access to district property as a disciplinary consequence even if a student is not suspended or expelled from school, if appropriate.

CORPORAL PUNISHMENT

Corporal punishment, as a measure of correction or of maintaining discipline and order in schools, is permitted. However, it shall be used only when all other alternative means of discipline have failed, and then only in reasonable form and upon the recommendation of the principal. If found necessary, it should be administered by a school administrator in the presence of a certified staff member. It should never be inflicted in the presence of other pupils, nor without a witness.

Corporal punishment shall be administered only by swatting the buttocks with a paddle. When it becomes necessary to use corporal punishment, it shall be administered so that there can be no chance of bodily injury or harm. Striking a student on the head or face is not permitted.

The administrator shall submit a report to the superintendent, explaining the reason for the use of corporal punishment as well as the details of the administration of the same.

A staff member may, however, use reasonable physical force against a student without advance notice to the principal, if it is essential for self-defense, the preservation of order, or for the protection of the student or other persons or to protect property of the school district. Restraint of students in accordance with the district's policy on student seclusion, isolation and restraint is not a violation of this policy.

Any use that jeopardizes the safety, security or usefulness of the district's technology is considered unreasonable. Any use that interferes with the effective and professional performance of the employee's job is considered unreasonable.

Any violation of district policies, regulations or procedures regarding technology usage may result in temporary, long-term or permanent suspension of user privileges.

The administration may use disciplinary measures to enforce district policies, regulations and procedures. Employees may be disciplined or terminated, and students suspended or expelled, for violating the district's policies, regulations and procedures. Any attempted violation of district policies, regulations or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation.

The written, signed complaint must be filed and the resolution pursued in accordance with local district policy: (insert your individual district's policy here such as submitting to the superintendent, board president, etc.)

If the issue cannot be resolved at the local level, the complainant may file a complaint with the Missouri Department of Education. If there is not evidence that the parties have attempted in good faith to resolve the complaint at the local level, the Department may require the parties to do so and may provide technical assistance to facilitate such resolution.

Any persons directly affected by the actions of the Department may file a similarly written complaint if they believe state or federal laws or regulations have been violated, misapplies, or misinterpreted by the Department itself.

Anyone wishing more information about this procedure or how complaints are resolved may contact local district or Department personnel.

NONDISCRIMINATION AND ANTI-HARASSMENT

A. Anti-Discrimination Law Compliance

As a political subdivision, employer, recipient of federal funds and educational institution, the Board of Education is prohibited from, and hereby declares a policy against, engaging in unlawful discrimination, including harassment creating a hostile environment, on the basis of race, color, religion, sex, national origin, ancestry, disability, age or use of leave protected by the Family and Medical Leave Act, in its programs, activities and with regard to employment. The Board is an equal opportunity employer.

Marital, maternal or paternal status shall not affect the rights and privileges of district students to receive an education. Those students are eligible to participate in all activities and receive all honors the same as any other students enrolled in the school district.

B. Collateral Prohibitions

As part of this obligation, the Board is also prohibited from, and declares a policy against:

- (1) Retaliatory actions based on making complaints of prohibited discrimination or participation in an investigation, formal proceeding or informal resolution concerning prohibited discrimination;
- (2) Aiding, abetting, inciting, compelling or coercing discrimination; and
- (3) Discrimination against any person because of such person's association with a person protected from discrimination due to one or more of the above-stated characteristics.

C. Compliance Officer Appointment

To ensure that these obligations are met, the Board designates the following individual to act as the district's nondiscrimination laws compliance coordinator, who shall also be the appointee for all laws specifically mandating such an appointment, and who shall have the duty of keeping the superintendent informed of the state of compliance with this policy districtwide:

Superintendent
2150 Highway 32
Halfway, MO 65663
Phone: 417-445-2351
Fax: 417-445-2026

D. Reporting and Complaint

Complaints and reports regarding discharge of the duties summarized in this policy should be addressed to the compliance coordinator. Any employee of the district or member of the Board of Education who becomes apprised of a possible violation of this policy must report the matter to the coordinator. In the event the compliance coordinator is the subject of a report that would otherwise be made to the compliance coordinator, reports should instead be directed to: (Name of Office, Address, Phone, Fax), who will assume the coordinator's duties for the purpose of that complaint.

E. Grievance Procedure and Resolution of Complaints

The administration will establish an effective grievance procedure and take any other actions necessary to carry out this policy, with due regard for the substantive and procedural rights of all parties concerned.

F. Confidentiality and Records

To the extent permitted by law, any public record held by this school district that is generated or received pursuant to this policy shall be closed and available only to the Board acting as a quorum, a committee appointed by the Board to carry out this policy on a permanent or ad hoc basis, the compliance coordinator and other administrators whose duties require access to the record in order to carry out this policy. Such persons may share access, on an individual basis, to such records with complainants or participants in a grievance or other resolution, only to the extent such disclosure promotes the purposes of this policy and is not prohibited by FERPA or any other law. Certain other limited disclosures may be required when material in the records is integral to an action affecting a constitutionally recognized property or liberty interest.

G. Public Notice and Dissemination

A copy of this policy will be posted in a public area of each building used for instruction and/or administrative offices. A copy of this policy will also be distributed annually to employees, parents or guardians, and students. The administration is directed to further publicize this policy and provide for such training or instruction as necessary to ensure district wide compliance with anti-discrimination laws, including instruction in recognizing behavior indicative of a violation of this policy.

H. Limitations

Nothing in this policy shall be construed as creating a cause of action. Neither the proscriptions of, nor actions taken under, this policy shall on that basis estop the Board from fully arguing for or against the existence of any fact and the scope or meaning of any law in any forum.

PROGRAMS FOR ENGLISH LANGUAGE LEARNERS

The Board of Education recognizes the need to provide equal educational opportunities for all students in the district. Therefore, if the inability to speak and understand the English language excludes a student from effective participation in the educational programs offered by the district, the district shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. Identifying students who are English language learners (ELL) and ensuring them equal access to appropriate programs are the first steps to improving their academic achievement levels.

Definitions

Language Minority (LM) -- Refers to a student whose linguistic background, such as country of birth or home environment, includes languages other than English. Language minority is based solely on the student's language background and not on proficiency.

Limited English Proficiency (LEP) -- Proficiency in reading, writing, listening or speaking English that is below grade- and age-level peers. Limited English proficiency is based on the assessment of a student's English language proficiency.

English Language Learner -- Refers to an LM student with limited English proficiency.

English for Speakers of Other Languages (ESOL) -- An instructional approach that can include structured ESOL immersion, content-based ESOL and pull-out ESOL instruction.

1. Structured ESOL immersion involves a bilingual teacher and a self-contained classroom.
2. Content-based ESOL allows the student to remain in the regular classroom and focuses on delivering content in an adapted English format.
3. Pull-out ESOL periodically removes students from the regular classroom for instruction in English.

Bilingual Education -- An instructional approach that explicitly includes the student's native language in instruction. This approach requires an instructor fluent in the student's native language and proficient in content areas and is often used where many ELL students share the same language and where qualified bilingual teachers are available.

Child -- Any individual age 3-21.

Parent -- Parent, legal guardian or person otherwise responsible for the child.

Language Instruction Education Program -- An instructional course in which an ELL child is placed for the purpose of developing and attaining English proficiency while meeting challenging state academic achievement standards as required by law. The program may make instructional use of both English and a child's native language and may include the participation

of English proficient children if such course is designed to enable all participating children to become proficient in English and a second language.

The district's coordinator for ELL programs is Erin Butler.

The Board directs the coordinator to develop and implement language instruction programs that:

1. Identify language minority students through the use of a Student Home Language survey (see IGBH-AF1). The building administrator will develop procedures to ensure that all new and currently enrolled students complete the Home Language survey.
2. Identify LM students who are also English language learners. Any student who indicates the use of a language other than English will be assessed for English proficiency using the state-provided assessment instrument.
3. Determine the appropriate instructional environment for ELL students.
4. Annually assess the English proficiency of ELL students and monitor the progress of students receiving ESOL or bilingual instruction in order to determine their readiness for the mainstream classroom environment.
5. Provide parents with notice of and information regarding the instructional program as required by law. Parental involvement will be encouraged and parents will be regularly apprised of their child's progress.

Halfway R-III School District, Halfway, Missouri

PROGRAMS FOR HOMELESS STUDENTS

The Halfway R-III School District Board of Education recognizes that homelessness alone should not be sufficient reason to separate students from the mainstream school environment. Therefore, the district, in accordance with state and federal law and the Missouri state plan for education of the homeless, will give special attention to ensure that homeless students in the school district have access to a free and appropriate public education.

Homeless students are individuals who lack a fixed, regular and adequate nighttime residence and include the following:

1. Children and youths who are sharing the housing of other persons due to loss of housing, economic hardship or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement.
2. Children and youths who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.
3. Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings.
4. Migratory children who meet one (1) of the above-described circumstances.

Enrollment/Placement

The district will consider the best interest of the homeless student, with parental involvement, in determining whether he or she should be enrolled in the school of origin or the school that nonhomeless students who live in the attendance area in which the homeless student is actually living are eligible to attend. To the extent feasible, and in accordance with the homeless student's best interest, the homeless student should continue his or her education in the school of origin, except when contrary to the wishes of the parent or guardian. If the homeless student is unaccompanied by a parent or guardian, the homeless coordinator will consider the views of the homeless student in deciding where he or she will be educated. The choice regarding placement shall be made regardless of whether the homeless student lives with the homeless parents or has been temporarily placed elsewhere.

The school selected shall immediately enroll the homeless student even if he or she is unable to produce records normally required for enrollment, such as previous academic records, immunization records, proof of residency or other documentation. However, the district may require a parent or guardian of a homeless student to submit contact information.

The district must provide a written explanation, including a statement regarding the right to appeal, to the homeless student's parent or guardian, or to the homeless student if unaccompanied, if the district sends him or her to a school other than the school of origin or other than a school requested by the parent or guardian.

If a dispute arises over school selection or enrollment in a school, the homeless student shall be immediately admitted to the school in which enrollment is sought, pending resolution of the dispute. The homeless student, parent or guardian shall be referred to the district homeless coordinator, who will carry out the dispute resolution process as expeditiously as possible.

For the purposes of this policy, "school of origin" is defined as the school that the student attended when permanently housed or the school in which the student was last enrolled.

Services

Each homeless student shall be provided services comparable to services offered to other students in the district including, but not limited to, transportation services; educational services for which the student meets the eligibility criteria, such as educational programs for disadvantaged students, students with disabilities and gifted students; vocational programs and technical education; school meals programs; preschool programs; before- and after-school care programs; and programs for students with limited English proficiency. Homeless students will not be segregated in a separate school or in a separate program within a school based on the students' status as homeless.

Transportation

If the homeless student's school of origin and temporary housing are located in the Halfway R-III School District, the district will provide transportation to and from the school of origin at the request of the parent, guardian or homeless coordinator, provided it is in the best interest of the student. If the homeless student's school of origin and temporary housing are located in two (2) different school districts, the districts will equally share the responsibility and costs for transporting the student.

Records

Any records ordinarily kept by the school for each homeless student, including immunization records, academic records, birth certificates, guardianship records and evaluations for special services or programs shall be maintained so that appropriate services may be given the student, so that necessary referrals can be made and so that records may be transferred in a timely fashion when a homeless student enters a new school district. Copies of records shall be made available upon request to students or parents in accordance with the Family Educational Rights and Privacy Act (FERPA).

Coordinator

The Board designates the following individual to act as the district's homeless coordinator:

Elementary Principal
2150 Highway 32, Half Way, MO
Phone 417-445-2215

The district shall inform school personnel, service providers and advocates working with homeless families of the duties of the district homeless coordinator. The homeless coordinator will ensure that:

1. Homeless students are identified by school personnel and by other entities and agencies with which the school coordinates activities.
2. Homeless students enroll and have a full and equal opportunity to succeed in schools in the district.
3. Homeless families and students receive educational services for which they are eligible, including Head Start, Even Start and preschool programs administered by the district, as well as referrals to health care services, dental services, mental health services and other appropriate services based on their assessed needs.
4. The parents or guardians of homeless students are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children.
5. Public notice of the educational rights of homeless students is disseminated where such students receive services, such as schools, family shelters and soup kitchens.
6. Enrollment disputes are mediated in accordance with law.
7. The parent or guardian of a homeless student and any unaccompanied student is fully informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school selected.
8. Unaccompanied students will be assisted in placement or enrollment decisions, their views will be considered and they will be provided notice of the right to appeal.
9. Students who need to obtain immunizations, or immunization or medical records, will receive assistance.

Resolving Grievances

Level I -- A complaint regarding the placement or education of a homeless student shall first be presented orally and informally to the district's homeless coordinator. If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless coordinator. The written charge must include the following information: date of filing, description of alleged grievances, the name of the person or persons involved and a recapitulation of the action taken during the informal charge stage. Within five (5) business days after receiving the complaint, the coordinator shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the coordinator will inform the superintendent of the formal complaint and the disposition.

Level II -- Within five (5) business days after receiving the decision at Level I, the complainant may appeal the decision to the superintendent by filing a written appeals package. This package shall consist of the complainant's grievance and the decision rendered at Level I. The superintendent will arrange for a personal conference with the complainant at his or her earliest mutual convenience. Within five (5) business days after receiving the complaint, the superintendent shall state a decision in writing to the complainant, with supporting evidence and reasons.

Level III -- If a resolution is not reached in Level II, a similar written appeals package shall be directed through the superintendent to the Board of Education requesting a hearing before the Board at the next regularly scheduled or specially called meeting. Within 30 business days after receiving the appeals package, the Board shall state its decision and reply in writing to the parties involved. For district purposes, the decision of the Board of Education is final.

Level IV -- If the complainant is dissatisfied with the action taken by the Board of Education, a written notice stating the reasons for dissatisfaction may be filed with the State Homeless Coordinator, Federal Discretionary Grants, P. O. Box 480, Jefferson City, MO, 65102-0480. An appeal of this decision can be made within ten (10) days to the Deputy Commissioner of Education.

PROGRAMS FOR MIGRANT STUDENTS

The Board of Education of the Halfway R-III School District directs the administration to identify migratory children in the district, as required by law, and to develop written administrative procedures for ensuring that migrant students receive services for which they are eligible. In developing and implementing a program to address the needs of migratory children the district will:

1. Identify migratory students and assess the educational and related health and social needs of each identified student.
2. Provide a full range of services to migrant students including applicable Title I programs, special education, gifted education, vocational education, language programs, counseling programs, elective classes, fine arts classes, etc.
3. Provide migratory children with the opportunity to meet the same statewide assessment standards that all children are expected to meet.
4. To the extent feasible, provide advocacy and outreach programs to migratory children and their families and professional development for district staff.
5. Provide parents an opportunity for meaningful participation in the program.

If a migrant student is identified by the district, the superintendent or designee will notify the State Director and request assistance if needed.

ASSESSMENT PROGRAM

The district will use assessments as one (1) indication of the success and quality of the district's education program. Further, the Board recognizes its obligation to provide for and administer assessments as required by law. The Board directs the superintendent or designee to create procedures governing assessments consistent with law and Board policy.

In cooperation with the administrative and instructional staff, the Board will annually review student performance data and use this information to evaluate the effectiveness of the district's instructional programs, making adjustments as necessary.

The district will comply with all assessment requirements for students with disabilities mandated by federal and state law, including the Individuals with Disabilities Education Act (IDEA).

District Assessment Plan

The superintendent or designee shall ensure that the district has a written assessment plan that will test competency in the subject areas of English, reading, language arts, science, mathematics, social studies and civics, as required by law.

The purposes of the district wide assessment plan are to facilitate and provide information for the following:

1. *Student Achievement* - To produce information about relative student achievement so that parents/guardians, students and teachers have a baseline against which to monitor academic progress. Within the limitations of group testing instruments, the information should be useful to serve as a validation device for other measures of student progress.
2. *Student Guidance* - To serve as a tool for implementing the district's student guidance program.
3. *Instructional Change* - To provide data that will assist in the preparation of recommendations for instructional program changes to:
 - a. Help teachers with instructional decisions, plans and changes regarding classroom objectives and program implementation.
 - b. Help the professional staff formulate and recommend instructional policy.
 - c. Help the Board of Education adopt instructional policies.
4. *School and District Evaluation* - To provide indicators of the progress of the district toward established goals.

5. *Adequate Yearly Progress* - To determine student progress toward meeting the goals established by the Missouri State Board of Education pursuant to the No Child Left Behind Act.

There shall be broad-based involvement in the development of the assessment program and its implementation. Instructional staff will be given training and responsibilities in coordinating the program. Every effort will be made to ensure that testing contributes to the learning process rather than detracts from it. Efforts shall also be made to incorporate necessary culture-free and culture-fair tests to assure that measurements are reasonably accurate.

Reading Assessment

The district will administer a reading assessment to students in third, fourth, fifth and sixth grades to determine whether additional reading instruction and retention are needed, as required by law. The district will also administer a reading assessment to all students who transfer to the district in grades four, five or six, and to all students attending summer school due to a reading deficiency, as required by law.

The reading assessment will be a recognized method, or combination of methods, of assessing a student's reading ability. Results of assessments will be expressed as reading at a particular grade level. The superintendent or designee will determine which methods of reading assessment the district will utilize.

English Proficiency Assessments

The district will annually assess the English reading, writing and oral language skills of its students with limited English proficiency.

Statewide Assessments

The district will implement the components of the Missouri Assessment Program (MAP) in order to monitor the progress of all students in meeting the Show-Me Standards, as set forth by the Missouri State Board of Education.

End-of-course (EOC) assessments will be administered in accordance with law and the rules of the Department of Elementary and Secondary Education (DESE). In courses where EOC assessments are given, the superintendent will determine what percent of the course grade will be decided by performance on EOC assessments.

If a student is taking a course that requires an EOC assessment and is failing the course or for some other reason may be required to retake the course, the district may choose to delay administration of the EOC assessment until the student has completed the course the second time. A team consisting of the course instructor, the principal and a counselor will determine when delayed administration of an EOC assessment is appropriate. In the case of a student with an Individualized Education Program (IEP), the IEP team will make the determination.

The School Board authorizes the superintendent to establish a process designed to encourage the students of this district to give their best efforts on each portion of any statewide assessment, which may include, but is not limited to, incentives or supplementary work as a consequence of performance.

The district's policy on student participation in statewide assessments shall be provided at the beginning of the school year to each student and the parent, guardian or other person responsible for every student under 18 years of age. The policy will also be kept in the district office and be available for viewing by the public during business hours of the district office.

National Assessment of Educational Progress

If chosen, the district will participate in the National Assessment of Educational Progress (NAEP) as required by law.

STUDENT RECORDS

(K-12 Districts)

In order to provide students with appropriate instruction and educational services, it is necessary for the district to maintain extensive and sometimes personal information about students and families. These records must be kept confidential in accordance with law, but must also be readily available to district personnel who need the records to effectively serve district students.

The superintendent or designee will provide for the proper administration of student records in accordance with law, develop appropriate procedures for maintaining student records, and standardize procedures for the collection and transmittal of necessary information about individual students throughout the district. The superintendent and building principals will develop a student records system that includes protocols for releasing student education records. Principals are responsible for maintaining and protecting student education records in each school. The superintendent or designee will make arrangements so that all district employees are trained annually on the confidentiality of student education records, as applicable for each employee classification.

Definitions

Eligible Student - A student or former student who has reached age 18 or is attending a postsecondary school.

Parent - A biological or adoptive parent of a student, a guardian of a student, or an individual acting as a parent or guardian in the absence of the student's parent or guardian.

Student - Any person who attends or has attended a school in the school district and for whom the district maintains education records.

Health Information

Student health information is a type of student record that is particularly sensitive and protected by numerous state and federal laws. Student health information shall be protected from unauthorized, illegal or inappropriate disclosure by adherence to the principles of confidentiality and privacy. The information shall be protected regardless of whether the information is received orally, in writing or electronically and regardless of the type of record or method of storage.

Parent and Eligible Student Access

All parents may inspect and review their student's education records, seek amendments, consent to disclosures and file complaints regarding the records as allowed by law unless a court order, statute or legally binding document prohibits such access. These rights transfer from the parent to the student once the student becomes an eligible student; however, under the Missouri Sunshine Law, parents

maintain some rights to inspect student records even after a student turns 18. The district will extend the same access to records to either parent, regardless of divorce, custody or visitation rights, unless the district is provided with evidence that the parent's rights to inspect records have been legally modified.

If a parent or eligible student believes an education record related to the student contains information that is inaccurate, misleading or in violation of the student's privacy, the parent or eligible student may use the appeals procedures created by the superintendent or designee to request that the district amend the record.

The district will annually notify parents and eligible students of their rights in accordance with law.

Directory Information

Directory information is information contained in an education record of a student that generally would not be considered harmful or an invasion of privacy if disclosed without the consent of a parent or eligible student. The district will designate the types of information included in directory information and release this information without first obtaining consent from a parent or eligible student unless a parent or eligible student notifies the district in writing as directed. Parents and eligible students will be notified annually of the information the district has designated as directory information and the process for notifying the district if they do not want the information released.

Even if parents or eligible students notify the district in writing that they do not want directory information disclosed, the district may still disclose the information if required or allowed to do so by law. For example, the district may require students to disclose their names, identifiers or district e-mail addresses in classes in which they are enrolled, or students may be required to wear, publicly display or disclose a student identification card or badge that exhibits information that is designated as directory information.

The school district designates the following items as directory information.

General Directory Information - The following information the district maintains about a personally identifiable student may be disclosed by the district to the school community through, for example, district publications, or to any person without first obtaining written consent from a parent or eligible student:

Student's name; parents' names; parents' email addresses; grade level; participation in district-sponsored or district-recognized activities and sports; weight and height of members of athletic teams; athletic performance data; degrees, honors and awards received; artwork or coursework displayed by the district; and photographs, videotapes, digital images and recorded sound unless such records would be considered harmful or an invasion of privacy.

Limited Directory Information - In addition to general directory information, the following information the district maintains about a personally identifiable student may be disclosed to parent groups or booster clubs that are recognized by the Board and are created solely to work with the district, its staff,

students and parents and to raise funds for district activities for the purposes of encouraging membership or participation in the group or club; parents of other students enrolled in the same school as the student whose information is released when the release is for the purpose of facilitating communication between parents; governmental entities including, but not limited to, law enforcement, the juvenile office and the Children's Division (CD) of the Department of Social Services for official governmental purposes:

The student's address, telephone number and e-mail address and the parents' addresses, telephone numbers and e-mail addresses.

The district may require a person or entity that requests limited directory information to certify in writing that the information will not be re-disclosed without the prior written consent of the parent or eligible student.

Law Enforcement Access

The district may report or disclose education records to law enforcement and juvenile justice authorities if the disclosure concerns law enforcement's or juvenile justice authorities' ability to effectively serve, prior to adjudication, the student whose records are released. The officials and authorities to whom such information is disclosed must comply with applicable restrictions set forth in federal law.

If the district reports a crime committed by a student with a disability as defined in the Individuals with Disabilities Education Act (IDEA), the district will transmit copies of the special education and disciplinary records to the authorities to whom the district reported the crime as allowed by law.

Law enforcement officials also have access to directory information and may obtain access to student education records in emergency situations as allowed by law. Otherwise, law enforcement officials must obtain a subpoena or consent from the parent or eligible student before a student's education records will be disclosed.

Children's Division Access

The district may disclose education records to representatives of the CD when reporting child abuse and neglect in accordance with law. Once the CD obtains custody of a student, CD representatives may also have access to education records in accordance with law. CD representatives may also have access to directory information and may obtain access to student education records in emergency situations, as allowed by law.

Military and Higher Education Access

The district will disclose the names, addresses and telephone numbers of secondary school students to military recruiters or institutions of higher education as required by law. However, if a parent, or a secondary school student who is at least 18, submits a written request, the district will not release the information without first obtaining written consent from the parent or the student. The district will

notify parents, and secondary school students who are at least 18, that they may opt out of these disclosures.

Volunteer Access

District staff will not allow volunteers to access student records unless the volunteer has completed a criminal background check and the district has determined that the volunteer should have access. A volunteer who has completed a criminal background check may access student education records only under the supervision of staff members and when necessary to assist the district.

Records Retention

The district shall retain all student records in accordance with applicable federal and state law, as well as the current version of the Missouri Secretary of State's Public School Records Retention Schedule and General Records Retention Schedule.

Safety For Missouri's Schools

The New Madrid Seismic Zone Extends 120 Miles Southward from the area of Charleston, Missouri, and Cairo, Illinois, through New Madrid and Caruthersville, following Interstate 55 to Blytheville and on down to Marked Tree, Arkansas. The NMSZ consists of a series of large, ancient faults that are buried beneath thick, soft sediments. These faults cross five state lines and cross the Mississippi River in three places and the Ohio River in two places.

The New Madrid Seismic Zone and surrounding region is Active, Averaging More than 200 Measured Events per Year (Magnitude 1.0 or greater), about 20 per month. Tremors large enough to be felt (Magnitude 2.5 – 3.0) are noted every year. The fault releases a shock of 4.0 or more, capable of local minor damage, about every 18 months. Magnitudes of 5.0 or greater occur about once per decade. They can cause significant damage and be felt in several states.

The Highest Earthquake Risk in the United States outside the West Coast is in the New Madrid Seismic Zone. Damaging temblors are not as frequent as in California, but when they do occur, the destruction covers over more than 20 times the area due to the nature of geologic materials in the region.

The 1968 5.5 magnitude Dale, Illinois earthquake toppled chimneys and caused damage to unreinforced masonry in the St. Louis area, more than 100 miles from the epicenter. A 5.2 magnitude earthquake in April 2008 in southeast Illinois, did not cause damage in Missouri, but was felt across much of the state.

A Damaging Earthquake in this Area, which experts say is about a 6.0 magnitude event, occurs about once every 80 years (the last one in 1895 was centered near Charleston, Missouri). There is estimated to be a 25-40% chance for a magnitude 6.0 – 7.5 or greater earthquake along the New Madrid Seismic Zone in a 50-year period according to the U.S. Geological Survey reports. The results would be serious damage to unreinforced masonry buildings and other structures from Memphis to St. Louis. We are certainly overdue for this type of earthquake!

A Major Earthquake in this Area - the Great New Madrid Earthquake of 1811-12 was actually a series of over 2000 shocks in five months, with several quakes believed to be a 7.0 Magnitude or higher. Eighteen of these rang church bells on the Eastern seaboard. The very land itself was destroyed in the Missouri Bootheel, making it unfit even for farming for many years. It was the largest release of seismic energy east of the Rocky Mountains in the history of the U.S. and was several times larger than the San Francisco quake of 1906.

When Will Another Great Earthquake the Size of Those in 1811-12 Happen? Several lines of research suggest that the catastrophic upheavals like those in 1811-12 visit the New Madrid region every 500-600 years. Hence, emergency planners, engineers, and seismologists do not expect a repeat of the intensity of the 1811-12 series for at least 100 years or more. However, even though the chance is remote, experts estimate the chances for a repeat earthquake of similar magnitude to the 1811-1812 New Madrid earthquakes over a 50-year period to be a 7 - 10% probability.

What Can We Do to Protect Ourselves? Education, planning, proper building construction, and preparedness are proven means to minimize earthquake losses, deaths, and injuries.

Prepare a Home Earthquake Plan

- Choose a safe place in every room--under a sturdy table or desk or against an inside wall where nothing can fall on you.
- Practice DROP, COVER AND HOLD ON at least twice a year. Drop under a sturdy desk or table, hold onto the desk or table with one hand, and protect the back of the head with the other hand. If there's no table or desk nearby, kneel on the floor against an interior wall away from windows, bookcases, or tall furniture that could fall on you and protect the back of your head with one hand and your face with the other arm.
- Choose an out-of-town family contact.

- Take a first aid class from your local Red Cross chapter. Keep your training current.
- Get training in how to use a fire extinguisher from your local fire department.
- Inform babysitters and caregivers of your plan.

Eliminate Hazards

- Consult a professional to find out additional ways you can protect your home, such as bolting the house to its foundation and other structural mitigation techniques.
- Bolt bookcases, china cabinets and other tall furniture to wall studs.
- Install strong latches on cupboards.
- Strap the water heater to wall studs.

Prepare a Disaster Supplies Kit for Home and Car

- First aid kit and essential medications.
- Canned food and can opener.
- At least three gallons of water per person.
- Protective clothing, rainwear, and bedding or sleeping bags.
- Battery-powered radio, flashlight, and extra batteries.
- Special items for infant, elderly, or disabled family members.
- Written instructions for how to turn off gas, electricity, and water if authorities advise you to do so. (Remember, you'll need a professional to turn natural gas service back on.)
- Keeping essentials, such as a flashlight and sturdy shoes, by your bedside.

Know What to Do When the Shaking BEGINS

- DROP, COVER AND HOLD ON! Move only a few steps to a nearby safe place. Stay indoors until the shaking stops and you're sure it's safe to exit. Stay away from windows.
- In a high-rise building, expect the fire alarms and sprinklers to go off during a quake.
- If you are in bed, hold on and stay there, protecting your head with a pillow.
- If you are outdoors, find a clear spot away from buildings, trees, and power lines. Drop to the ground.
- If you are in a car, slow down and drive to a clear place (as described above). Stay in the car until the shaking stops.

Know What to Do AFTER the Shaking Stops

- Check yourself for injuries. Protect yourself from further danger by putting on long pants, a long-sleeved shirt, sturdy shoes, and work gloves.
- Check others for injuries. Give first aid for serious injuries.
- Look for and extinguish small fires. Eliminate fire hazards. Turn off the gas if you smell gas or think it's leaking. (Remember, only a professional should turn it back on.)
- Listen to the radio for instructions
- Expect aftershocks. Each time you feel one, DROP, COVER, AND HOLD ON!
- Inspect your home for damage. Get everyone out if your home is unsafe.
- Use the telephone only to report life-threatening emergencies.

INTERROGATIONS, INTERVIEWS AND SEARCHES

Searches by School Personnel

School lockers, desks and other district property are provided for the convenience of students and, as such, are subject to periodic inspection without notice.

Student property may be searched based on reasonable suspicion of a violation of district rules, policy or law. Reasonable suspicion must be based on facts known to the administration, credible information or reasonable inference drawn from such facts or information. Searches of student property shall be limited in scope based on the original justification of the search. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses and not in front of other students, unless exigent circumstances exist.

It is a privilege, not a right, to park on school grounds. The school retains the authority to conduct routine patrols of any vehicle parked on school grounds. The interior of a student's automobile on school premises may be searched if the school authority has reasonable suspicion to believe that such a search will produce evidence that the student has violated or is violating either the law or district policy.

The administration will contact law enforcement officials to perform a search if the administration reasonably suspects that a student is concealing controlled substances, drug paraphernalia, weapons, stolen goods or evidence of a crime beneath his or her clothing and the student refuses to surrender such items. Law enforcement officials may be contacted for assistance in performing a search in any case in which a student refuses to allow a search or in which the search cannot safely be conducted.

School employees and volunteers, other than commissioned law enforcement officers, shall not strip search students, as defined in state law, except in situations where an employee reasonably believes that the student possesses a weapon, explosive or substance that poses an imminent threat of physical harm to the student or others and a commissioned law enforcement officer is not immediately available. If a student is strip searched, as defined in state law, by a school employee or a commissioned law enforcement officer, the district will attempt to notify the student's parents/guardians as soon as possible.

During an examination, and if reasonable under the circumstances, school employees may require students to empty pockets or remove jackets, coats, shoes and other articles of exterior clothing that when removed do not expose underwear. Employees may also remove student clothing to investigate the potential abuse or neglect of a student, give medical attention to a student, provide health services to a student or screen a student for medical conditions.

School Resource Officers

The school resource officer (SRO) may interview or question students regarding an alleged violation of law. A school resource officer may also accompany school officials executing a search or may perform searches under the direction of school officials.

Interview with Police or Juvenile Officers/Other Law Enforcement Officials

Law enforcement officials may wish to interview students regarding their knowledge of suspected criminal activity and may wish to interrogate students who are themselves suspected of engaging in criminal activity. Such interviews and interrogations are discouraged during class time, except when law enforcement officials have a warrant or other court order or when an emergency or other exigent circumstances exist. It is the responsibility of the principal or designee to take reasonable steps to prevent disruption of school operations while at the same time cooperating with law enforcement efforts.

When law enforcement officials find it necessary to question students during the school day or during periods of extracurricular activities, the school principal or designee will be present and the interview will be conducted in private. The principal will verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school. The principal ordinarily will make reasonable efforts to notify the student's parents/guardians unless the interviewer raises a valid objection to the notification.

Removal of Students from School by Law Enforcement Officials

Before a student at school is arrested or taken into custody by a law enforcement official or other legally authorized person, the principal will verify the official's identity. To the best of his or her ability, the principal will verify the official's authority to take custody of the student. The school principal will attempt to notify the student's parents/guardians that the student is being removed from school.

Interview with the Children's Division

Representatives of the Children's Division (CD) of the Department of Social Services may meet with students on campus. The district liaison will work with CD to arrange such meetings so they are minimally disruptive to the student's schedule. If the student is an alleged victim of abuse or neglect, CD may not meet with the student in any school building or child care facility where the abuse of the student allegedly occurred. The principal will verify and record the identity of any CD representatives who request to meet with or take custody of a student.

Contacts by Guardian Ad Litem and Court-Appointed Special Advocate

When a court-appointed guardian ad litem or special advocate finds it necessary to interview a student during the school day or during periods of extracurricular activities, the school principal or designee must be notified. The principal will verify and record the identity of the individual through the court

order that appoints him or her. The interview must be conducted in a private setting and with the least disruption to the student's schedule.

This may include the use of video equipment in school buildings and on district transportation. No recording equipment will be placed in areas of the building where the occupant would have a reasonable expectation of privacy, such as restroom facilities or locker rooms. Recordings by or on behalf of district personnel that include students will be considered student Board

records and will be maintained in accordance with the Family Educational Rights and Privacy Act (FERPA) and other applicable laws.

Recording by Students

The Halfway R-III School District prohibits the use of video or audio recording equipment on district property or at district activities by students except:

1. If required by a school-sponsored class or activity.
2. At performances or activities to which the general public is invited such as athletic competitions, concerts and plays.
3. At open meetings of the Board of Education or committees appointed by or at the direction of the Board.
4. As otherwise permitted by the building principal.

Recording of Meetings

The Board of Education prohibits the use of audio, video or other recording devices at meetings held pursuant to the Individuals with Disabilities Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973, as well as other meetings between district employees and parents/guardians. Exceptions to this prohibition will be made only in accordance with Board policy and law. Requests for such exceptions must be made within a reasonable period of time prior to the scheduled meetings. This prohibition does not apply to conversations held within view of district security cameras.

HALFWAY R-III SCHOOL DISTRICT

EXTRACURRICULAR, CO-CURRICULAR ACTIVITY AND STUDENT DRIVER STUDENT DRUG TESTING POLICY

The Board of Education recognizes that drug use is a serious problem confronting our community and, in an effort to protect the health and safety of its students from illegal drug use and abuse or injuries resulting from the use of drugs, thereby setting an example for all students of the Halfway R-III School District, adopts the following policy for drug testing of students participating in extracurricular and/or co-curricular activities.

Statement of Purpose and Intent

It is the desire of the Board of Education, administration, and staff that every student in the Halfway R-III School District refrains from using, possessing, or distributing illegal drugs. The sanctions of this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in extracurricular and/or co-curricular activities. This policy is intended to supplement and complement all other policies, rules, and regulations of the Halfway R-III School District regarding possession or use of illegal drugs.

Participation in school sponsored extracurricular and/or co-curricular activities at the Halfway R-III School District is a privilege. Accordingly, students in extracurricular and/or co-curricular activities carry a responsibility to themselves, their fellow students, their parents and/or guardians and their school to set the highest possible examples of conduct, which includes avoiding the use of illegal drugs.

The purpose of this policy is to prevent and deter illegal drug use and to strive within the school district for an environment free of illegal drug use and abuse. The sanctions of this policy relate solely to limiting the opportunity of any student found to be in violation of this policy to participate in extracurricular and/or co-curricular activities. If the discipline policy of the Halfway R-III School District is violated with respect to alcohol and drugs, the student will be subject to the penalties of the discipline policy. The violation will also be counted as a violation of this policy.

Use of illegal drugs (as defined below) is incompatible with participation in extracurricular and/or co-curricular activities of the Halfway R-III School District. For safety, health and well-being of the students of the school district, the district has adopted this policy for use by all students participating in extracurricular and/or co-curricular activities in grades 7-12.

Drug testing Guidelines

Each student participating in extracurricular and/or co-curricular activities as well as student drivers, shall receive copies of the "Student Extracurricular/Co-Curricular Activity/Student Driver Drug Testing Policy" and "Student Extracurricular/Co-Curricular Activity Student Drug Testing Consent" form which shall be read, signed, and dated by the student, parent and/or guardian. In order to participate in extracurricular, co-curricular activities and or drive to school, students must provide the "Student Extracurricular/Co-Curricular Activities Testing Consent" form to the high school office by the deadline stated on the form. Any student who does not turn in the required forms by the deadline will not be eligible to drive to school or participate in any extracurricular and/or co-curricular activity during the remainder of the school year, including the months of May through August when school may or may not be in session.

Transfer students who intend to participate in extracurricular and/or co-curricular activities have 10 school days from enrolling in the district to turn in to the high school office the "Student Extracurricular/Co-Curricular Activity, Student Driver Drug Testing Consent" form. Once a transfer student turns in the form, he/she will be placed in the testing pool within one week. If the transfer student fails to turn in the form within the required 10-day period, he/she will not be eligible to participate in any extracurricular and/or co-curricular activity during the remainder of the school year, including the months of May through August when school may or may not be in session. Students in extracurricular and co-curricular groups to be drug tested include, but are not limited to the following: interscholastic sports, cheerleading, band, speech, drama, debate, FFA, FCCLA, FBLA, Skills USA, choir, academic teams, student council, school/club field trips, school dances/prom and academic clubs.

Definitions

Co-curricular activities-activities that students participate in outside of the classroom as a result of being enrolled in a school-offered class.

Extracurricular activities - activities that take place outside the regular course of study in school.

Drug Use Test - scientifically substantiated method to test for the presence of illegal drugs in a person's urine. The district may use alternative methods of testing as it deems appropriate (saliva, hair).

DSO – Designated School Official

Illegal Drugs - the use, possession, distribution, sale or solicitation of alcohol, drugs (their imitators), unauthorized prescription or

non-prescription drugs, drug-related paraphernalia, narcotic substances, marijuana or other intoxicants and any other substances, which an individual may not sell, possess, use, distribute, or purchase under either federal or Missouri law.

MRO- Medical Review Officer

Positive Test Result - when referring to a drug test administered under this policy, a lexicological test result which is considered to demonstrate the presence of an illegal drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.

Reasonable Suspicion — a suspicion based on specific personal observations concerning the appearance, speech, or behavior of a participating student, and reasonable inferences drawn from those observations in the light of experience. Information provided by a reliable source, if based on personal knowledge, shall constitute reasonable suspicion.

Procedure

Students will be required to provide urine samples as follows: (In cases where a student fails to provide a urine sample, a swab test of the inside of the mouth may be used.)

1. Randomly selected based upon the frequency the district deems appropriate.
2. At any time requested based on reasonable suspicion

Any drug test required by the Halfway R-III School District under the terms of the policy will be administered by or at the direction of a professional laboratory chosen by the school district using scientifically validated toxicological methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control and scientific testing. All aspects of the drug-use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of students to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize the intrusiveness of the procedure. If a student fails to provide a urine sample over a reasonable amount of time, the technician may use a swab test where the inside of the cheek is swabbed for a sample.

The specific procedure will be as follows:

1. Each student is assigned an identification number for random selection. The testing agency will randomly select identification numbers from all students in the pool and provide them to the school district. The district will identify students based on these identification numbers provided and proceed with testing. Upon receiving a notice from the designated school official that the student has been selected for a random drug test, the student will go to the testing site. Appropriate steps will be taken to respect the privacy of students while, at the same time, preventing the falsification of testing. Upon entering the testing site, the student will be asked to provide the identification number given to him/her by the DSO. The student will then be asked to remove the contents of his/her pockets and remove outer garments. Next, the student will be asked to wash his/her hands. The collection technician will secure the bathroom by putting blue dye in the stool, taping off water supplies, removing trash cans, etc. The collection technician will then open a collection container in the presence of the student, remove the contents and hand the collection cup to the student, explaining that the student is to provide a urine specimen in the collection cup and then place the cup on a pre-designated flat surface upon completion of the void. The student will also be reminded not to flush the toilet or use the faucet until the collection is completed. The collection technician will step outside the bathroom and shut the door, allowing the student to provide a specimen in private.

Once the student has completed the specimen and opened the bathroom door, the collection technician will check the specimen for appropriate temperature, foreign color and odor. If the specimen does not show signs of tampering, the student will be allowed to wash his/her hands while the collection technician initiates a preliminary drug screen of the specimen. The collection technician will conduct all procedures in accordance with accepted industry practices.

2. If the initial screening test indicates the presence of a tested drug, or if the collection technician is conducting an internal self-audit of a testing device, the specimen collected will be poured into the specimen vials that came in the collection cup. The collection technician will initiate a split-specimen using a Custody and Control Form, that, when completed, will be sent (along with the specimen) to a SAMHSA-certified laboratory for a second screening test. If the second screening test is also non-negative, the laboratory will conduct a more in depth test by means of a gas chromatography/mass spectrometry (GC/MS) analysis.

If the GC/MS test is non-negative, the results will be forwarded to the Designated School Official (DSO). The DSO will contact the student's parent/legal guardian and ask for a meeting. At the meeting, the DSO will inform the parent/legal guardian of the non-negative result and ask for permission to forward the results to a Medical Review Officer (MRO). If permission is granted, the DSO will obtain the parent/legal guardian's name, ID # and contact phone # and forward that information to Employee Screening Services, who will then forward the information to the MRO. If permission is not granted, or the parent/legal guardian

will not meet with the DSO, the lab results will be accepted as the final results.

When the MRO receives the above information, he will contact the parent/legal guardian, verify identification and then discuss the medications the student is taking. If any of the medications being taken by the student could explain the non-negative result, the MRO will verify with the prescribing physician that there is a legitimate prescription in the student's name. Once all pertinent information has been obtained, the MRO will make a final determination of the test results. Those results will be forwarded to ESS, who will then forward them to the DSO.

If the parent/legal guardian contests the MRO's decision, the parent/legal guardian may request, within 72 hours of the MRO's decision, to have the split specimen sent to the same or a different laboratory for a second-opinion analysis. The cost of the split specimen test will be at the parent/legal guardian's expense and may be required prior to the test being conducted.

If a student does not provide a specimen within a reasonable amount of time, the student will have up to 5 days to provide a valid medical reason for failing to provide a specimen within the reasonable time period. The MRO will determine the validity of the medical reason provided.

Retesting After Service of Suspension

A student who has tested positive or has refused to test and has served the required suspension period will be required to undergo one or more additional drug-use tests before he or she may rejoin an extracurricular and/or co-curricular activity. These students must produce a negative test in order to become eligible.

Confidentiality

Test results shall be kept in confidential separate files separate from a student's other educational records and released to school personnel only when absolutely necessary.

Violations

Any students who test positive in a drug-use test under this procedure shall be subject to the following restrictions:

First Offense

1. The student shall be suspended from driving to school and from participation in all extracurricular and/or co-curricular activities including all meetings, practices, performances, and competitions, for 45 days. During this time, it is recommended that the parent/guardian obtain a substance abuse evaluation and education/counseling for the student. Students who obtain counseling from a school approved professional may appeal to the administration to reduce suspension to 30 days. Students who are enrolled in a class which involves co-curricular activities will remain in the class during the suspension and may participate in classroom activities, but may not participate in any activities outside of the regularly scheduled class time.

If because of the suspension, the student is unable to participate in an activity, which constitutes a portion of the student's grade, the student will be given the opportunity to complete alternative assignments so that the student can earn the same grade as he would have had he been allowed to participate in the activity.

Second Offense

2. The student shall be suspended from driving to school and from participation in all extracurricular and/or co-curricular activities including all meeting, practices, performances, and competitions for 52 continuous and successive weeks (365 days) from the date of the initial report of the second offense as stated in this procedure.
